Resolution

The following resolution was formed and adopted and reads as follows

Whereas at a former session of a former court held July 13th 1896, the County Atty Chris Johnson, instructed the court then in session, that a decision had been given by the Supreme Court of the Territory of Utah, in regard to County Warrants being negotiable papers, and should draw legal interest, which is 8% according to the Statute. That under and by virtue of the then supposed Supreme Court decision, the Board of County Aldermen, issued interest on outstanding warrants to the amount of 8%. That considerable interest had been already paid under that instruction when the present Board of Commissioners came into office Jan. 1st 1895, and this Board then continued to pay the above named interest of 8%. That on the 30th day of September 1896, the Attorney General of the State of Utah, Hon. A.L. Bishop, rendered an opinion, saying, that no interest could be paid on Warrants issued prior to June 8th 1896, only on Warrants issued under Chpt. 8. of the Laws of 1896, relative to labor on roads but that all warrants issued subsequent to June 8th 1896, shall bear from date of registration until paid 8% interest

Therefore be it resolved that, under the said opinion of the Hon. A.L. Bishop, Atty General of the State of Utah, it is hereby ordered that all warrants issued prior to June 8th 1896, and which shall be presented to the Treasurer of Emery County for payment and interest shall be paid their face value without interest, And it is hereby ordered that this order shall be inforced until such time as the Board of County Commissioners shall receive instruction otherwise And it is further ordered that the Treasurer of Emery County, shall also refuse payment on County Warrants on which it is stated on their face that they shall bear 8% interest annually, said order having been made contrary to the opinion of the Attorney General of the State of Utah and no statute compelling the same or justifying the said order, but this Board having been misled by the action of the former Court in allowing said interest on County Warrants without any Warrant in law for doing so. but We are of the opinion that they were misled in this particular action, and it is further ordered that the Treasurer of Emery County shall also refuse

To pay and cancel warrants issued for interest on warrants issued
Dated Dec. 8th 1896.

Communication

A Communication from the Atty. General to the County Atty. was presented and read, regarding the New School District of Huntsville as to the division of taxes, expenditures etc., said communication was on motion ordered spread on the minutes, and reads as follows.—

Subject: New school district, created out of parts of four others, special tax levy prior to its creation, how disposed of.

Attorney General's Office
Salt Lake City, Utah January 9th 1902

Arthur M. Freeman Esq.
County Attorney
Castle Dale, Utah

Sir:—

I beg to acknowledge the following communication from you, and upon which you seek my official opinion to wit:—

The County Commissioners created a school district (last June) from the territory of four other school districts, prior to the creating of the new districts two of the school districts from which territory was taken in creating the new district, had levied a special school tax for building purposes. There had also been (prior to creating of new district) one half of one per cent, levied by the Trustees of the four school districts

for the purpose of defraying current expenses etc.

Now the question that I would be obliged for your opinion is this. Have the county commissioners the power to refund to the newly created district, the special school tax, also the one half of one per cent, which has been collected from the New district, or shall the taxes go to the districts that ordered the levy to be made?"

Your attention is called to sec. 1801 R.S. which, among other things authorizes the county commissioners to create a district out of the part, or parts of one or more districts, upon being petitioned so to do by as many residents of such territory, as have the care, and custody of not less than twenty school children, of school age, residing therein, or upon the recommendation the county Superintendent."

This seems to be the only part of sec. 1801, which applies to the creation of a new district out of parts of others, the balance of the section refers to the dividing, consolidating, or changing the boundaries etc. of existing districts, and it authorizes the commissioners to apportion debts, property etc, as to them.

It will be observed that the portion of the statute above quoted, (and it is only statute applicable to the question before us) only authorizes the commissioners to create a new district out of part, or parts of existing districts.

While there is no direct authorization, conferred upon the county commissioners to adjust the debts and property of the old district to fit the new conditions after the change has been made, I am of the opinion that the power to create, lodged in the commissioners, carries with it the power to adjust the debts and property rights, of the old district, and the new one, in accordance with justice.

Without discussing the matter at greater length, you are advised that the portion of the special taxes, for building purposes, levied upon the property included within the boundaries of the new district created ought to be refunded to the new district, if the same has been collected. But the other levy, of one half of one per cent, to defray current expenses, seems to present a different principle. In this instance, I assume, that the expense was created prior to the operation of the new, from the old districts and the current expenses were for the benefit of all the territory included in the four original districts. Therefore you are advised that this last levy can not be refunded.

Yours truly

W. A. Breeden
Attorney General

Resolutions of Respect.

On motion the following Resolution was ordered spread upon the minutes:

Whereas, By the decease of the late William Taylor, Sr., of Ferron, Emery county, has one of its earliest pioneers, a man who served the county and public faithfully and conscientiously as one of its first county selectmen, when that position entailed many privations, hardships and self-sacrifices and for all of which he received but little pecuniary reward. His public services were freely given by him for the establishment and upbuilding of Emery County and the advancement of its institutions, his advice and counsel were valuable upon many matters of public policy, and given with but one motive in mind—that of the public good; We regard his death as a distinct public loss and consider it proper and timely to express the sentiment of the present board of county commissioners, and we believe express the general feeling of the people of Emery County respecting the public services of so honorable, useful and estimable citizen as was William Taylor Sr.

Therefore be it

Resolved, That this preamble and resolution

be spread upon the minutes of this board, and that a copy of the same be sent to the family of the deceased, and also that the same be published in the Emery County Progress.

Thereupon the Assessor assessed the said Nutter with 600 head of cattle as a permenant resident and as the stock were in the Desert Lake School District the assessment was placed in the Desert Lake School District, and he could not understand why the said Nutter was taking the stand he is at this time in regard to this assessment and if he refused to pay this Special School Tax he should be prosecuted for not filing his grazing certificate in 1911 as the law provides that he should.

The assessor advised the Board that to date the said Nutter has failed to file with him his grazing certificate for the year of 1912 and the County Attorney was instructed by the Commissioners to start a criminal action against the said Preston Nutter for not filing a grazing certificate for the year 1912 as the law provides .

NOW, THEREFORE, RESOLVED, that the Board of County Commissioners of Emery County duly assembled, does hereby grant the aforesaid petition and declares its intention of levying, between the first monday in July and the second Monday in August of this year, a special tax of 1/5 of one mill , for the year 1912, upon the taxable property within this county for the purposes of creating a fund for the uses and purposes hereinbefore mentioned; and be it further resolved that the fund thus created shall be expended by and under the direction of Hon. The matter of Making the levy for the Green River Irrigation District, is hereby laid over until the next meeting of the Board.

TO REQUEST STATE BOARD OF EQUALIZATION TO LOWER ASSESSED VALUATION OF REAL ESTATE

Upon investigation it is found that the property assessed by the State Board of Equalization is not of any higher valuation than for the year 1911, and it is also found that the property as assessed by the County Assessor in all classes is about the same valuation as for the year 1911, except the assessed valuation of Real Estate, therefore in the estimation of the Commissioners there is no resonable excuse for this class of property to be of any higher valuation than for the year 1911, in as much as the valuation of other property is remaining stationary. On motion of Comm. Louis W. Peterson, seconded by James B. Crawford

duly put to a vote, and carried, the County Clerk, County Assessor and County Attorney are hereby appointed a committee of three to meet with the State Board of Equalization and place this matter before said Board and request that they lower the valuation of this class of property so that it will be of the about the same valuation as former year, 1911, or that they raise the assessed valuation of all other property so that it will be of about the same assessed valuation to its true cash value as the Real Estate of Emery County.

CASTLE DALE, UTAH, FEBRUARY 2nd. 1914.

The Commissioners of Emery County, Utah, met in regular session on this the above date, all members present and the following business then transacted.

Minutes of the regular meeting of January the 5th. dan 6th. read , approved and signed.

REQUEST FOR AID Mr. Magnussen of Castle Dale , Utah, came before the Board and requested that the Commissioners allow the minor children of one John J. Nordell, deceased some assistance from the Poor Fund of the County, that their father and mother are both dead and the children are in destitute circumstances and that he had already contributed to their care and support. Mr. Magnussen was advised by the Commissioners , that as soon as the administrator or guardian is appointed by the Court to look after said minors, they would be willing to allow them something from the Poor Fund of the County.

Mr. Adelbert Lott of Huntington , Utah, came before the Board and advised them that he had paid his poll tax to Emery County and that Huntington Town has been prosecuting him to get him to pay the said poll tax to said Huntington Town, he claimed that his residence is outside of Huntington Town, but that he lived in said town part of the year ~~so that his children could go to school~~, that he was not financially able to bear the expense of the suit he was obliged to fight against said Huntington Town and requested the Commissioners to help him,out of the County Funds so that he could fight the case and determine where the poll tax belonges. On advice from the County Attorney, the Commissioners advised the said Lott that they could not help pay the expenses of this suit out of the County Funds.

TO REDEEM TAXES WITHOUT COSTS The County Treasurer appeared before the Board and requested them to allow D. A. Johnson to redeem the property described on page 56, line 17, Book "A", as the property had been erroneously sold by himself as County Treasurer, said request was on proper motion granted.

INSTRUCTIONS TO STATE ROAD AGENT Mr. F. A. Killpack, State Road Agent for Emery County, came before the Board and reported that the State Road from Price to Emery was in very bad condition in places, that he was continually being requested by the traveling public to repair and put in passible condition said road , from Carbon County Line to Emery, that he was not in a position to do any thing, that he had instructions from Jesse D. Jewkes State Road Commissioner to discontinue all work on said road, that he was also advised that the Mail Contractor has had to do some work on said road at his own expense in order to get the mail through Emery County and in his opinion the said mail contractor was not required to make roads or keep them in repair and unless something is done to help keep the said road open, it might be necessary to discontinue the mail service, that in his opinion the State should not close things down so tight, but allow enough work to be done to keep the said road in passible condition.

It appearing to the Commissioners that the statements of the said Killpack were correct and that it is not for the best interests of the roads of Emery County, that all work be stopped at this time of the year, that some work done at the proper time would probly result in a less expenditure of money at a future time.

The said F. A. Killpack was notified by the County Commissioners that they

they Commissioners of Emery County desire that he advise the State Road Commission of the condition of said roads, that they loosen up a little and allow some work to be done upon this road to keep the same open for travel and that it is as important for the said road to be kept open at this time of the year as any any time, that it has come to their attention that the people are complaining about paying such a high tax for this road and then when the road needs repairing the worst the State Road Commission shuts down work and the people have to get over the raod the best way they can.

The Commissioners also advised the said F. A. Killpack, that they have long age discovered their position relative to said road, that about all the authority they have is to levy the tax for said road and any thing they have to say, relative to the best time to do any work upon same, and to spend the taxpayers money to the best advantage is without much weight with the State Road Commission and in their opinion the State Road agent, if the State Road Commission has confidence enough in a man to appoint him to said position, would be in a better position to advise when work is required upon said road than a person or set of officials that does not travel said road only when in its best condition, and if any of them ever had the pleasure of traveling said road at all seasons of the year would know that it is not for the best interests of said road to stop all work upon same at any time of the year.

The said F. A. Killpack advised the Commissioners that he would comply with their request and so notify the State Road Commission .

APPOINTMENTS Upon application of William Hitchcock, County Road Commissioner, in and for Emery County, Utah, Clayton Kofford is hereby appointed as Deputy County Road Commissioner in and for Castle Dale Precinct.

Upon application of Henry Thompson, Sheriff of Emery County, Utah, D. O. Morgan is hereby appointed as Deputy Sheriff in and for said county.

RESIGNATION ACCEPTED The resignation of Joseph Magarrell, Deputy County Road Commissioner in and for Green River Precinct, Emery County, Utah, is hereby accepted.

PETITION FOR CO. ROAD A petition signed by Sherman Ingels and 51 other resident citizens of Green River, Utah, praying that the Commissioners establish a County Road as follows, to-wit:- Beginning at the South-west Cor. of the SE¼ of Section 4, Tp. 21 S., R. 16 E of S. L. M., North to Township Line; thence East to the South-east Cor. of the SE¼ of Section 31 , Tp. 21 S., R. 16 E., of S.L.M.; thence North to the SE. Cor of the NE¼ of the NE¼, said Sec. 31; thence East to the SE Cor. of the NE¼ of the NW¼, Sec. 32, thence Northto the NE. Cor. of the NW¼ of Sec. 20, said Tp. and Range.

In connection with said petition was a letter from John D. Peters, stating that this road is laid out and being traveled, but some of the road was 60 ft. wide in places and but 4o ft. wide in others, that the people owning the land along said road were not willing to give more land for said road and that he thought the road of sufficient width.

The matter was taken under consideration by the Commissioners and the County Attorney and it was the opinion of the said county attorney, that it would not be lawful for the Commissioners to establish a highway or County Road of less width than 66 ft. and refered them to Section 1117 of the Comp. Laws of Utah, 1907.

William Richardson made motion that the County Road Commissioner be instructed to notify the said petitioners that it is impossible for them , the County Commissioners to locate a highway or Co. Road of less width than 66 ft. and for him also to investigate the matter and see what can be done relative to the same, said motion was duly seconded by Commissioner Peter Nielson, put to vote and carried, all members voting , AYE:.

PETITION FOR SCHOOL DISTRICT The petition from the resident citizens of Rochester, praying that the County Commissioners establish a School District at said place and the said school district to be known as Rochester School District, was again taken under consideration by the Commissioners.

The people of Emery protested against the establishment of the said School District and include the property in said district that they prayed for in their petition, for the reason that it would include a great portion of their farming lands, and would so reduce their valuation that it would be hard for them to pay their debts and maintain the school at Emery.

It appearing to the Commissioners that the property included in the boundaries for said district if granted as prayed for would result in a great injury to Emery School District and if the property was not included in said district and a School District was established without all the property included, the valuation in said Rochester District was not enough for them to properly maintain a school at Rochester from the revenue the could get by the highest levy the could put upon the property for District School purposes.

It appearing to the Commissioners that it is not for the best interest of the people that this School District be established without they get some valuation from the Rail Road and that it is not practable for them to re-district the school districts of Emery County for another year at least and without the entire county being re-districted they can not apportion the property to the best interests of the school districts of Emery County and give Rochester a School District with enough property so that they can properly maintain a school at said place and the petition was not granted.

TO TRANSFER FUNDS The County Treasurer is hereby instructed to transfer the sum of $500.00 from the General Fund of the County to the Salary Fund.

PETITION GRANTED The petition of Ada Nicholson, praying for a monthly allowance from the Dependant Mothers Fund of the County, being properly presented to the Commissioners and duly filed, that said Ada Nicholson is hereby allowed the sum of $4.00 per month from said Dependant Mothers Fund until further order of the Commissioners.

AID TO INDIGENT On proper application and motion the following named persons were allowed the respective amounts from the Poor Fund and the County Auditor instructed to draw his warrants on said fund for said amounts, to-wit:-

E. E. Dodge,	Huntington, Utah.	$10.00
Maria Pringle,	Cleveland, Utah.	$10.00

APPOINTMENT On proper application of Maria Christensen Health Officer of Cleveland Precinct, N. C. Oveson is hereby appointed Deputy Health Officer for said place.

REFUND OF POLL TAX It appearing to the Commissioners from poll tax receipts presented to them, that Wesley Tullis has paid Emery County his poll tax for year 1913 in Huntington and Lawrence Precincts, and on proper motion the County Auditor is hereby instructed to draw his warrant on the County Road Fund , favor said Wesley Tullis for the sum of $2.00

ERRONEOUS ASSESSMENT The assessment of J. H. Laramie, Book "B" page 28, line 30 is hereby declared erroneous for the reason the tax on this property is in connection with other property.

Castle Dale, Utah, December 21st.1914.

The Commissioners of Emery County, Utah, convened in regular adjourned session on this the above date, all members present and the following business transacted.

Minutes of the meeting of December 8th. 1914, read,approved and signed.

Mr. J. H. Stevenson of Huntington, Utah came before the Board and requested that the boundary line of the Huntington School District be changed so that the following real estate will be in said Huntington School District instead of Cleveland School district, to-wit:-

Sec. 27, Tp. 17 South, Range 9 East, S.L.M, for the reason that the owners of said real estate reside in said Huntington School District. The said request was not granted for the reason that the same condition exists all over the county and the Commissioners do not feel that they can be changing the boundary lines all the time.

TO RE-DISTRICT SCHOOL DISTRICTS.

The matter of re-districting the School districts of the County was taken up at this time . The recommendation of the County Sup't of Schools on file shos that the valuation of the School districts are very unequal according to the School children in each district.

Said Sup't Schools report shows that the valuation per capita in each district ranges from about $803.00 to $4147.00 per child and the valuation should be distributed so that each school child should have a valuation of about $1200.00 per child.

It appearing to the Commissioners that this condition exists and that the school districts should be re-districted and the valuations be more equallt distributed among the various districts and that each child in each district should have a valuation of about $1200.00 , also that Rochester is entitled to a School District and be given a valuation of about $35000.

Thereupon Commissioner Peter Nielsen offered the following motion, which was duly seconded by Commissioner Wm. M. Richardson, put to a vote and carried, all members voting AYE:

That the Commissioners of Emery County, Utah proceed at once to have the school districts of Emery County, Utah, re-districted and that each school district be given a valuation as near $1200.00 per child of school age as possibleand that that Rochester School District be created and given a valuation of about $35,000.00 , that the County Surveyor, with the assistance of the County Clerk proceed to figure up the present valuations in each school district, and by the 31st. day of December report to the Commissioners where the boundaries will have to be established for each district to arrive at the desired result

The Commissioners of Emery County, Utah convened in regular adjourned session as per adjournment of the 29th. inst. All members present and the following business transacted.

Minutes of the meeting of December 29th. 1914, read, approved and signed.

REPORT

David H. Wood, the surveyor employed by the Commissioners to assist in re-districting the School Districts of Emery County, Utah, and C. T. Bowen, County Clerk, reported to the Commissioners , that they has complied with the instructions given them by the Commissioners, relative to re-districting the School Districts of Emery County, Utah and their findings are as follows to-wit:-

That in reapportinning the property of the County to the various school districts and creating a School District at Rochester, they found that it was necessary to leave in Mohrland School District a valuation for each child of school age the sum of approximately $2,438.00 and in Green River School District a valuation of approximately $1,529.00 per child of school age, that the balance of the School Districts of the County have a valuation of approximately $1,135.00 per each child of school age, and that they had figured out a school Dist. for Rochester at a valuation of approximately $35,000.00

That owing to certain conditions existing in said Mohrland and Green River School Districts it was absolutely impossible to apportion the property in said school districts equal with the rest of the County, therefore they have a higher valuation per school child than the balance of the School Districts of the county.

That they had figured out where the boundaries of the various school districts of the county will have to be located to apportion the property of the county as above stated and to arrive at the results mentioned above

That to arrive at the results mentioned above it will be necessary to establish the boundaries of the School Districts of Emery County, Utah, as follows, to-wit:-
