WHEREAS it has been made to appear further to said Commissioners that the maximum acreage ever subject to taxation for the payment of said debt was a little less then 3,000 acres,of which 2,000 acres, more or less,are under what is known as the Forty-Two Foot Canal,and 1,000 acres ,more or less,are under what is known as the Ninety-Foot Canal; that by reason of the failure of said District to complete its irrigation system and furnish water for said 1,000 acres under said Ninety-Foot Canal,none of said land has ever been susceptible of irrigation,and all of said land has contributed practically nothing to the support of said District and the other taxing bodies containing same,and that a large part of said land has already been deeded to and title to the same is now in Emery County for the taxes of 1911; and

WHEREAS,it has been made to appear further to the Commissioners of Emery County that said District can complete its irrigation system so as to render said 1,000 acres irrigable only by the expenditure of a large sum of money,and that said land,even,it water were available for its irrigation,could be made susceptible of irrigation and s suitable for cultivation only by the expenditure of additional large sams of money,and that ,all the circumstances considered,it seems extremely improbable that said 1,000 acres under the said Ninety Foot Canal will for several years,if every,be available for the support of said District by the payment of taxes therein,and

WHEREAS it has been made to appear further to said Commissioners,that,for the foregoing reasons,said 2,000 acres under said Forty Two Foot Canal is the only source to look to for the payment of said indebtedness of $258,000.00 ; and that each acre now deeded to and held by said Emery County,and listed hereinafter,must,if sold by said County,contribute hereafter its pro rata share of said $258,000.00 to wit; approximately $129.00 as taxes for the payment of same are annually levied and collected hereafter,and

WHEREAS it has been made to appear further to said Commissioners that none of said land deeded to said Emery County and listed hereinafter can be made productive and capagle of paying any portion of its pro rata share of said debt except by the expenditure of large sums of money and much labor thereon; and,that,considering the portion of said District's indebtedness charageable upon said land,the physical condition of said District,the necessity of having the irrigation system of said District,completed and all the land therein rendered susceptible of irrigation and capable of contributing to the support of said district ,the present condition of the land listed hereinafter and the improbability of said land ever producing any income for the several taxing bodies in the State of Utah,embracing said land so long as it remains in its present condition,said land is worthless to the County of Emery,and all of the other taxing bodies interested therein; and,

WHEREAS ,in the judgment of the Commissioners of Emery County,the best interests of the State of Utah,the County of Emery,the Green River Irrigation,and all the other taxing funds and districts concerned therein,require that said land be in the hands of individuals who will attempt to render same productive and capable of contributing its share of the taxes hereafter chargeable against the same,even through no consideration at all should be received therefor at this time by the taxing bodies interested therein, and,

WHEREAS L.J.Cullen,of Chicago,Illinois,has offered to pay a sum equal to One Fortieth (1/40) of the amount of taxes(excluding interest and costs) for which as a minimum price the lands hereinafter listed were offered for sale by the Commissioners of Emery County on the 31st day of May,A.D.1916,for a deed from the County of Emery conveying all the right,title and interest of the State of Utah, the County of Emery, the Green River Irrigation District,and all other tax funds and districts in and to all of said tracts as hereinafter listed to him,the said L.J.C

ullen

; and the said L J Cullen further agrees to take or have taken forthwith such stsps as may be necessary to render said land productive and capable of contributing the taxes hereinafter lawfully assessed upon said land by said taxing bodies.

Now, therefore, for the reasons aforesaid, be it ordered by the Commissioners of Emery County, that said Emery County sell and convey to said L.J.Cullen, of Chicago Illinois, all right title and interest of the State of Utah, the County of Emery, the Green River Irrigation District, and all other tax funds and districts in and to the following described tracts to wit;-

MINUTES.

Minutes of meeting held June,5,and 6th,1916, were read, approved and signed.

PETITION.

The Petition heretofore filed in this office by Claud W Freed,Ruth Freed, Lester D Freed,and F.C.Schramm asking for a compromise settlement of taxes assessed against certain coal lands located in Emery County, and as described in detail in said petition,which is hereby made a part of this record,was brought on for hearing at this time, the above parties being represented by thier Attorney E.W.Senior,who on behalf of said parties offered the County Commissioners $1,000.00 as a full settlement of all back taxes assessed against said property.

This proposition was discussed at length,by E.W.Senior,and the Commissioners, and it appearing to the Commissioners that there is a question as to the County Collecting taxes on this property until patents had been issued,and that they have the right to make a settlement for less than taxes and costs,as is more fully set forth in Chapter 24 Laws of Utah,1915,it is by the board ordered as follows to wit;

That the County treasuer accept 20 % of all taxes assessed against this property in full settlement ,and that he issue to said petitioners redemption certificates.

TAX DEMANDS.

That Tax Demand of Carbon County, as heretofore filed in the office of the Clerk of this Board be denied on proper motion, for the following reasons. That said demand does not show that the Commissioners of Carbon County ever made any demand or authorized any demand to be made against the County of Emery for thier apportionment of the taxes collected from transient herds in Emery County,for the year 1915.That said demand is not made according to law/.

REPORTS.

Report of R.C.Miller, Justice of the peace in and for Castle Dale Precinct was examined and found correct by the County Attorney,and upon proper motion same was approved.

STATE ROADS

The matter of the asking for the designation of a three and one half mile strip of road from the Sanpete-emery County boundary line at the head of Huntington Canyon to the mines at Connellsville, which was held over from the last meeting of the board was at this time taken up and discussed, and the following resolution was adopted by Commissioner Isaac Allred, who moved its adoption, which was duly seconded, put to a vote and carried.

"That whereas, the Board of County Commissioners of Emery County, being assembled in regular session on this the 7th day of August,1917,and

Whereas, it appearing to said Board that the Denver & Rio Grande Rail Road, has not sufficient facilities to place sufficient coal in San Pete County for the needs of said County, and

Whereas, there are coal mines in Emery County, east of Fairview, Sanpete County, which would be accessible to the people of San Pete County, if three and one half miles of road adjacent to the said mines in Emery County were improved, and

Whereas, it appears to the said Commissioners that Emery County cannot benefit as much from the designation and improvement of said road, as it would it other roads in Emery County, were improved, but in fairness to San Pete county, so that she may successfully and adequately secure sufficient fuel for the coming winter, the following resolution is made.

Minutes of January 7th, 1918, were read by the Clerk, and on proper motion were approved and signed.

On proper motion the grazing certificates of Carbon, Sanpete, and Wasatch Counties were held over until the next regular meeting of the Board.

The assessment in Book____ page___ line___ in the name of A.J. Broderick for $500.00 was declared a double assessment.

On proper motion the following resolution was unanimously passed by the Board on the above date.

" That whereas, the bridge known as the Mounds Bridge in Emery County, Utah is in a condition which requires an immediate expenditure of $1500.00 or near that amount to repair it, or it will be taken out by the high-waters in the Spring of 1918. and

Whereas, the travel on the road upon which this bridge is located is not sufficient to justify the great expense of repairing the said bridge, and maintaining the same in good condition,

And whereas, the State Road Commission has made to the County Commissioners a proposition of wrecking the said bridge, and paying to the said County of Emery the salvage price of said bridge, less the cost of wrecking, the amount to be received by Emery County and credited to the State Road Fund of Emery County.

Now therefore, upon motion of Commissioner Isaac Allred and seconded by Commissioner D. Heber Leonard, and being voted on favorably by Chairman Gillispie and Commissioners Allred and Leonard, be it resolved that the County Commissioners of Emery County at the regular meeting of the said Commissioners in February 1918, authorize the State Road Commission to wreck the said Mounds Bridge, and that upon wrecking the said bridge, the State Road Commission pay to the County of Emery, to be credited to Emery County's State Road Fund, the salvage price of said bridge, less the costs of wrecking.

Resolution put before the commissioners of Emery County the 4th day of February 1918, and unanimously passed.

Letter received from W.T. Reid, County Superintendent of Schools regarding the appointment of a probation officer for this County, stating that he had been acting as both probation officer and as Juvenile Court Judge. After considering the matter the

On proper motion the following parties were granted monthly allowances from the Poor Fund of the County, and the County Auditor was instructed to draw his warrant monthly in favor of said parties in the amounts set opposite their names.

Mrs. Etta Allred $7.50 Mabel Meeks $7.50

Ferdinand Erickson, representing the Utah Fuel Company, appeared before the Board at this time, and made the following objection.

That the Utah Fuel Company objects to any valuation as coal supposed to be contained in the land owned by said company. That the only valuation which can be placed upon said land is the value of the land only and not the coal contained therein, that should there be any coal in said land that the same cannot be assessed until said coal is mined or taken out of the ground. They object to any price being placed upon said lands other than the price paid the Government for said lands.

ASSESSMENT REDUCED.

Upon proper motion it is hereby ordered that the lands under what ii known as the Price Canal, or the lands which receive water from said canal be assessed at 2/3 of the value as placed upon said lauds for year 1917,and the County Assessor instructed to furnish the Clerk with a list of said lands in order that he may make the necessary, changes.

Said reduction being made for the reason that the Reservoir which furnished water for said lands during the low water season of the year, went out during the summer of 1917 thereby reducing the water supply of said land, and also reducing the value of the land itself.

On proper motion meeting was duly adjourned until May 21st, 1918, at the hour of 10 o'clock A.M.

It appearing to the Commissioners that the lands located under what is known as the Price Canal in this County, are not worth as mush as they were prior to the breaking of the Reservoir which supplies said canal or lands during the low water season, for the reason that the water supply being cut down a great deal, and consequently the value of the lands would be reduced accordingly. Therefore upon proper motion duly seconded put to a vote and carried, all members voting aye, it is hereby ordered that the valuation of the following described lands be reduced 1/3 from the assessment as it now stands.

TRUCKS

A communication, from Ira R. Browning, State Road Engineer, was read, stating that the number of Army Trucks assigned by the Bureau of Public Roads to the State Road Commission was somewhat in excess of their anticipated requirements for construction of roads during the coming season, and that if we so desired, a part of the surplus may be made available for use in our County for the maintenance of our Federal Post Roads. The matter was discussed at length and it appearing to the Board that the use of trucks for the transportation of material and for the shaleing and dragging of roads would mean a great saving in the maintenance of roads.

Upon proper motion the Road Commissioner was instructed to get four of these trucks, if possible, for the use as above stated.

A communication, from Mary A. Killpack for her father Jas. W. Bradley, was read stating that he was desirous of having his son, who is in the mental hospital at Napa, California, transferred to the Mental Hospital at Provo, Utah, if it were possible, and wanted to know if the Commissioners could assist in having him transferred.

TO SURVEY COUNTY LINE.

A communication, from the County Clerk of Wayne County, in answer to our communication of December 10th 1919, was read, stating that the Board of County Commissioners of Wayne County were not in a position, on account of insufficient funds, to cooperate with us in surveying and establishing the line between the two Counties at the present time.

The matter of the necessity of having the line established at once was discussed. It having been brought to the attention of the board that we were losing the assessment on a number of Transitory stock now grazing in this vicinity each year By our Assessor and Deputies not knowing the exact location of the line between the two Counties. Commissioner Gillispie favored the establishing of the line, out thought that we ought to wait until the coming fall to survey the line when Wayne County would probably would be in a position to cooperate with us and our funds

would be in a better shape to take care of the expense of surveying the said line. Commissioner Allred made a motion that we proceed at once to survey the said line and that the Clerk advise the Wayne County Officials of this action and ask them to advise us to what extent they are able and will cooperate with us in the expense of the survey. Motion was seconded by Commissioner Leonard put to a vote and carried. Commissioners Allred and Leonard voting for the motion and Gillispie voting against.

COMMITTEE

A committee consisting of D.L. Peacock, Bert Ryan, George L. Taylor and A.E. Stilsen, all of Orangeville and Ed. Crawford of Castle Dale, met with the Board of County Commissioners at this time, and stated that the Influenza was increasing very rapidly in the towns of Castle Dale, and Orangeville and having but the one Doctor for the two Towns, therefore there was great need for additional Medical Assistance and asked the consent or approval of the Board of County Commissioners in requesting the State Board of Medical Examiners to permit W.E. Henzie of Castle Dale to practice medicine during the time the influenza might remain in its present form, or to ask that another Doctor might be sent down to assist us.

The matter was considered and the Board favored the Committee's request, and advised them to the effect that they favored the request to the State Board of Medical Examiners to permit Henzie to practice or assist us during the Influenza Epidemic, or that if the State Board could not permit Henzie to practice, then to send another Physician down here to assist us.

That the Board of County Commissioners did not authorize the above named committee to send any telegram to any State Official or Board and signing the name of the Board of County Commissioners of Emery County thereto, and that the Board protests the action of said Committee in so doing.

That no authority was given this Committee to use the name of the Board of County Commissioners in the manner it was used.

That the only action taken by the Board in this matter was to favor the request to the Stage Board of Medical Examiners for assistance, and was not intended as a direct request from the Board of County Commissioners of Emery County, to the State Board to permit Henzie to practice medicine.

CLAIMS NOT ALLOWED

The claim of G.A. Johnson amounting to $5.00 for removing dead animal from the Town of Huntington was not allowed for the reason that it wasn’t a proper charge against the County.

George L. Taylor, representing the Electric Power & Milling Company, met with the Board at this time and stated that the Company thought the additional assessment of $9,950.00 placed upon the Plant and Electric lines of the said Company was to high and asked that they be granted a reduction. After the matter was investigated it was found that the Dynamo had been originally assessed with the mill property and had therefore been doubly assessed. Upon proper motion a reduction of $2,950.00 was made on the machinery, leaving the $7,000.00 to stand as an assessment on the lines of the said Company, and the Clerk was instructed to make the change on the 1919 Assessment Rolls of the County according to the above action.

_____

Page 111 Line 23 stating that he drove into and grazed along the line between Emery and Wayne Counties, 2700 head of Range cattle and which he gave in an assessment of 1700 head to Emery County and 1000 head to Wayne County which was all the cattle he grazed in the two Counties. That the cattle assessed in book A Page 111 Line 14 were owned and assessed to his son Kelvin B. McMillen in 1917 and the taxes were paid for that year, that in the fall of 1917 he sold all the cattle he owned in Emery Co. and went in the Army and that his son has not owned or grazed any stock in Emery County since the year 1917. Upon proper motion the assessment in Book B. page 111 Line 23 was reduced to show and assessment of 1700 mange Cattle and cane assessment in Book A. Page 111 Line 14 was declared erroneous.

Commissioners Isaac Allred and D. Heber Leonard being the members present. There being no business come before the board at this time the meeting was duly adjourned.

Clerk Chairman.

Castle Dale, Utah, March 1st 1920.

The Board of County Commissioners of Emery County, Utah, met on this the above date in regular session. All members being present and the following business was transacted. ROADS

A Delegation from Orangeville, consisting of the following, John Oliphant, George L. Taylor, A.E. Stilsen and Herbert Moffitt met with the hoard at this time stating that the Mail route leading through Orangeville town and South to the intersecting point of the State Road needed some grading and that since the poll tax law had been repealed taking away the source of revenue by which this road had been maintained they were unable to keep up this road and therefore asked for some assistance from the County.

Upon proper motion an appropriation of $40O.00 was made to be expended on the road from the intersecting point south of the town of Orangeville North and that it be expended under the direction of the County Road Commissioner where most needed.

Upon proper motion the County Attorney and County Assessor were authorized and instructed to go to Salt Lake City, for the purpose of meeting with the Officials of the Utah Fuel Company in connection with the case of Utah Fuel Company vs.- Emery County now pending in the Federal Court and, if possible, to arrive at some basis of settlement.

ADDITIONAL ASSESSMENT

John Taylor of Orangeville, representing the Electric power & Milling Company met with the Board at this time stating that there seemed to be some misunderstanding with reference to the additional assessment heretofore placed on their Plan &. lines, they believing that the valuation arrived at between the Board and George Taylor at the last regular Equalization meeting included both the original and the additional assessment. But upon learning that the valuation as fixed by the Board was only that of the additional assessment they felt that the amount was excessive.

After the matter was considered at length, it was found that the valuation was somewhat excessive and that a portion of the Plant had been doubly assessed therefore upon proper motion a reduction of $2,750.00 was granted and the Clerk was instructed to make the necessary changes upon the 1919 Assessment Rolls.

REPORT OF INQUEST

Report of Leo Kenney, of the proceedings in the matter of the inquest over the body of K. Okuji, who was killed in a mine accident at Mohrland was submitted and on proper motion approved.

and have agreed to expend all money and do everything necessary to put said land in cultivation, and to pay taxes thereon, provided a satisfactory adjustment of the past taxes against said land can be made with the County of Emery; and, Whereas, by reason of the conditions affecting said District and the land therein, is a drag upon all of the taxing bodies in which it is located, and a liability rather than an asset; and, Whereas, to reclaim said land and improve it and make it productive will require the expenditure of thousands of dollars on the part of said Thompson and Myrup; and whereas it is to the best interest of said taxing bodies as well as to he best interests of all the creditors of said District that said District be put in good condition and that said land made worth paying taxes thereon; Now, Therefore, in order to induce said Thompson and Myrup to reclaim said land and to rehabilitate said Irrigation District and to pay the taxes thereon, be it resolved that the County of Emery sell and convey to said Thompson and Myrup so much of the above described land as has been

deeded to the County for an amount fixed by taking one-twentieth (1/20) of the amount, exclusive of interest and costs, for which said land was offered at public sale after the same was deeded to the County in accordance with the statute in such case made and provided, on the express condition that all taxes hereafter levied against said land shall be paid from time to time as the same matures, provided that the payment of said taxes for the years 1921 to 1926 inclusive shall be conclusive evidence that this condition has been complied with; and the auditor of Emery County is directed, on receipt of the amount hereinbefore fixed, to make and deliver to said Myrup and Thompson the necessary deed or deeds authorized by this resolution, but shall insert in each of said deeds the following stipulation. It is expressly understood and agreed between said Emery County and said Thompson and Myrup that this deed is made upon the condition that the taxes for the years 1921 to 1926 inclusive shall be paid in due course as the same become due and collectable or this conveyance shall be null and void and the land conveyed hereby shall revert to the County of Emery; but the payment of said taxes shall make this deed completely effective and the conveyance evidenced hereby absolute. and

Be it further resolved that on payment of the taxes for the year 1920 levied against so much of said land as may not have been deeded to the county and the payment of one-twentieth of the prior taxes, now charged against said land(exclusive of interest and costs),said one-twentieth to be payable in cash, warrants and bond coupons in the same, proportion as that in which the original taxes might have been paid, the remainder of said taxes shall be remitted and any tax certificate or certificates issued to Emery County in connection with said tracts shall be cancelled; provided that if the taxes levied against said last described tracts for the years 1921, to 1925 inclusive shall not be paid from time to time as the same mature, the remitted and cancellation hereby authorized shall be revoked and said lands shall be and become liable for the taxes herein directed to be remitted; and, Be it resolved that any other owner of land in the Green River Irrigation District who desires to purchase from Emery County and land deeded to said County or to settle his delinquent taxes in connection with tracts in said District not so sold to said County, may and it is hereby ordered that he be permitted to purchase his land and settle his delinquent taxes on the same terms extended to said Thompson and Myrup; and the County Treasurer and County Auditor are authorized and directed to take any and all steps required to carry this resolution into effect.

Be it resolved that whereas the County Treasurer of Emery County is under the impression that he should act only on the order of the Board of County Commissioners of the County in accepting in payment of construction fund taxes or General fund taxes levied against the lands in the Green diver Irrigation District, warrants of either class, instead of requiring general fund warrants for general fund taxes and construction fund warrants for construction fund taxes, and whereas it has been paid to appear to the County Board that the Directors of said District have authorized the acceptance of either class of warrants in settlement of either class taxes; now therefore be it resolved that so far as authority may be required from the Board of County Commissioners, the County Treasurer is authorized and directed to accept in payment of either class of said taxes either class of said warrants.

This completing the business of the Board at the regular meeting, upon proper motion the meeting was duly adjourned.

Clerk. Chairman.

Castle Dale, Utah, October 4th 1920.

The Board of County Commissioners in and for Emery County met on this, the above date as a Board of Equalization as per the adjournment from August 16th, 1920. The following business was transacted.

A representative of the Bonneville Lumber Company of Green River, Utah, met with the Board and protested the additional assessment placed upon the merchandise and trade fixtures, stating that the report submitted by them to the State Board of Equalization was their inventory taken December 1st, 1919, and did not represent their stock as should have been January 1st, 1920; that the true amount of the inventory on January 1st, 1920 was $5490.00 inclusive of merchandise and trade fixtures. Upon proper motion the assessment was fixed to remain as appears in Book "A", Page 6, Line 25.

B.J. Peacock of Emery, Utah, met with the Board relative to the additional assessment placed upon the merchandise and trade fixtures of B.J. Peacock & Son, stating that they were now assessed for more than they had reported to the State Board of Equalization and asked that the additional assessment be taken off and that their assessment stand as they were originally assessed. Upon examination of the record, it was found that a mistake had been made and that the additional assessment was erroneous. Upon proper motion the additional assessment was ordered taken off.

D. A. Lowry appeared before the Board and protested the raise placed upon the Eagle Roller Mills. After a further examination of the report submitted by the State Board of Equalization, it appeared that the additional assessment should remain as fixed.

C.E. Larsen representing the Consolidated Wagon & Machine Company of Castle Dale, Utah, met with the Board and asked if they had made any reductions on the assessment on obsolete goods carried by the Retail Houses throughout the County, and he was advised that they had not. Mr. Larsen asked that a reduction be made on the assessment of these goods carried by the Consolidated Wagon & Machine Company. He was advised that if a proper showing was made to the Board of what goods he had on hand, which they termed obsolete, the Board would be in a position to and would take some action.

This completing the business of the Board of Equalization, upon proper motion the meeting was duly adjourned.

Clerk Chairman.

A communication from Mina Miller was read by the Clerk asking the Board to take off the personal property from the real estate and Store Bldg. in Huntington, stating that the personal property consisted of Machinery and tools which was owned by the Huntington Garage. Upon proper motion the Clerk was instructed to separate the Personal property from the real estate upon the filing of a bond by the Huntington Garage as security for the payment of the taxes on the personal property.

RESIGNATION

Upon proper motion the resignation of Ira A. Day as Health Officer for Elmo precinct was accepted.

POOR FUND

Upon proper the following persons were granted an allowance from the poor fund of the County in the amounts set opposite their names.

Julia McNiel,	$10.00
J.A. Thompson,	8.00

DEPENDENT MOTHERS FUND

Annie E. Anderson of Castle Dale, was granted an allowance of $10.00 per month from the Dependent Mothers fund of the County.

COAL & WOOD

Upon proper motion the Clerk was authorized and instructed to advertise for bids for the furnishing of 10 tons of coal and 2 cords of dry cedar wood for the Court House.

Ira R. Browning, representing the Kelly & Ivers interests, met with the Board relative to the taxes assessed against their property or the property known as the Horse Canyon Coal property for the year 1916 and subsequent, and which has not been redeemed. The property having been assessed at the Government appraised value for that year, which was excessive, they felt that they shouldn’t be required to pay the excessive tax when other property of the same value was assessed for a much less amount. He asked that some basis of compromise be agreed upon as they were willing to pay a reasonable amount of taxes. Upon proper motion the matter was held over until the next regular meeting.

REFUND OF TAXES.

Annie E. Rassmussen of Castle Dale, and Mrs. Fred Fail of Orangeville, was granted a refund of $10.00 each on their taxes for the year 1920,their names having been overlooked on the list of names worthy of abatements.

Upon proper motion the following list of claims were allowed by the Board of County Commissioners, approved for payment and the County Auditor instructed to issue his Warrant in payment thereof.

Clerk Chairman.

Castle Dale, Utah, December 6th 1920.

The Board of County Commissioners in and for Emery County, State of Utah, met on this the above date in regular session, all members being present, the following business was transacted.

Minutes of the meeting held November 8th 1920, were read by the Clerk and were approved and signed by the Chairman of the Board.

REPORT OF JUSTICE OF PEACE

Report of Leo Kenney, Justice of the Peace in and for Mohrland, was upon proper motion approved and filed.

RESIGNATION

Resignation of Jed Knight as bee Inspector for the County was read by the Clerk, and upon motion of D. Heber Leonard and duly seconded, the matter was held over until such time as the Board could ascertain from the County Bee organization who they wished to recommend for the appointment as his successor. Mr. Knight would therefore be held over until his successor was appointed.

COAL & WOOD

There having been six bids filed with the Clerk for the furnishing of 10 tons of coal and 2 cords of dry cedar wood, which were opened by the Clerk, in the presence of the Board and read. The bid of Jesse R. Sitterud of Orangeville, was declared to be the lowest and best bid. Therefore upon proper motion the contract was awarded to Jesse R. Sitterud for the sum of $66.00.

CONSTABLE

Upon the recommendation of Isaac Allred, and upon, proper motion Henry D. Maxfield was appointed Constable for Emery precinct.

BRIDGE OVER SAN RAFAEL RIVER

A delegation consisting of George M. Miller, representing the Chamber of Commerce of Price and a number of representative citizens of Emery County appeared before the Board in behalf of a bridge over the San Rafael river on the road into the San Rafael Swell. Mr. Miller advised the Board that the Chamber of Commerce of Price and Carbon County would assist in the construction of this bridge but that in as much as the bridge would be in Emery County they thought that we should take the lead and get the proposition under way. Some of the stock raisers expressed themselves as favoring such a bridge as there is more or less loss every year in crossing their cattle and sheep over the river going to and from the Desert. Upon proper motion an appropriation of $200.00 was granted for the Huntington to San Rafael road and $150.00 was appropriated for the Green River Sinbad road.

SALE OF LAND

David A. West of Salt Lake City and W.F. Asimus of Green River, Utah, met with the Board and presented a communication addressed to the Board of County Commissioners of Emery County, which was read by the Clerk and which stated that the records in the Office of the County Recorder shows that a considerable amount of land or lots lying within and in the vicinity of Green River City had reverted to the County by reason of tax delinquencies and that David A. West and V.L. Arnold offers to purchase some of this land, for which they offer to pay all delinquent taxes together with interest and costs accrued to date.

Castle Dale, Utah, December 18th 1920

Pursuant to the following order, the Board of County Commissioners met in special session. Commissioners Isaac Allred and D. Heber Leonard being the members present.

Castle Dale, Utah. December 8th 1920.

It is Ordered that a special meeting of the Board of County Commissioners of Emery County, be held on Saturday December 18th 1920,for the purpose of considering the matter of building a bridge over the San Rafael River, and for the, consideration of ways and means of paying the balance of Emery Counties position of the Price to Castle Dale road project. That the Clerk is hereby authorized and instructed to notify the other members of the Board of this meeting.

Isaac Allred,
Chairman.

George M. Miller, President of the Price Chamber of Commerce, C.E. Larsen, President of the Emery County Commercial Club and a number of other citizens appeared before the Commissioners in behalf of the bridge over the San Rafael river. Mr. Miller stated that he had been advised that a number of Oil Rigs would be snipped to the San Rafael District within the near future, that if the bridge was not completed within a very short time there was a possibility of the Rigs being unloaded and taken in from other points. That the Chamber of Commerce of Price and Carbon County would appropriate $500.00 each toward the construction of this bridge and that they were going to send a delegation to meet with the State Road Commission and ask for the old abandoned bridges over the Drunkards Mash and the Miller Creek Wash. That if Emery County could get the old Cedar Creek bridge and appropriate $1,000.00 and that some assistance from the leasers in that district could be gotten, the bridge could be built.

C.E. Larsen, spoke in favor of such a proposition and pledged the support of the Emery County Commercial Club.

Upon proper motion $500.00 was appropriated from the County Road Fund for the construction of this bridge and E.O. Anderson was appointed to take charge of the work.

Being advised by the State Road Commission of the amount of Emery Counties portion of the Federal Aid Project from Price to Castle Dale, and it appearing from the records in the County Auditor's office that there wasn’t sufficient funds available at the present time in the State Road Fund to pay our portion of the said project. Therefore be it resolved by the Board of County Commissioners, that the Chairman of the Board of County Commissioners and the County Auditor, be and they are hereby authorized and instructed to negotiate for a loan of $10,000.00 for the purpose of paying off the deficit.

This completing the business of the Board at this time upon proper motion the meeting was duly adjourned.

We have also appropriated $150.00 toward the construction of a road from Green River into the Swell, but we are unable to make any recommendation as to its condition at the present time but without knowledge of the general character of the country, would not recommend traveling this road without investigation by shippers or representatives.

Section 11. This ordinance will be in force and effect fifteen days after its passage and due publication.

Passed by the County Commissioners of the County of Emery this 11th day of April A.D. 1921.

D. Heber Leonard,
Chairman County Commissioners.

State of Utah,)
ss.
County of Emery,)

I, J.B. Jewkes, Clerk of Emery County, State of Utah, do hereby certify that the foregoing ordinance, containing two sections, was duly passed by the County Commissioners of Emery County, on the third day of May, 1921, on roll call Commissioner Leonard voting yes, Commissioner Hitchcock, voting yes, and Commissioner Adams voting yes.

IN TESTIMONY WHEREOF,I have hereunto set my hand and affixed the corporate seal of said County, this third day of May,1921.

J.B. Jewkes,
Clerk of Emery County.

(SEAL)

Upon proper motion the County Clerk was authorized to go to Salt Lake City, and check up Emery Counties accounts with the State Road Commission, and ascertain what had been done with the $5,000.00 which we had remitted toward the construction of the Bridges South of Castle Dale.

POOR FUND

Upon proper motion the allowance heretofore granted to Levi Hunt was raised to $12.00 per month.

SALARY OF CROPS & PESTS INSPECTOR

The salary of the County Crops & Pests Inspector is hereby, Upon proper motion duly seconded and carried, reduced to $100.00 per month, same to take effect April let 1921.

QUIT CLAIM DEED

Whereas, it appears that there has been a mistake made in describing a certain tract of land, in an Auditors Tax Deed issued in 1915,said deed being entered as entry No. 30661 in the County Records Office, wherein certain lands owned by Raymond J. Rutt was erroneously described and included in the Auditors Tax Deed, which should not of been included therein. Therefore upon proper motion it is ordered that the Clerk issue a Quit Claim Deed to Raymond J. Rutt, to the following described land, to wit;- E½ of the W½ of the NW¼ ft of the SE¼, Section 16 Township 21 South of Range 16 East, S.L.M.

RESOLUTION

That, whereas in regular meeting of the Board of County Commissioners, the matter of redemption of certain tracts of real estate which was been sold to Emery County for the 1916, taxes and which has not been redeemed, and

Whereas, there is a probability of the owners coming in and desiring to redeem same even after the deeds are issued, which may be done under Section 6056 of the Compiled Laws of Utah,1917, by paying all taxes, interest and costs assessed against said lands.

Now, therefore be it resolved that the Clerk of Emery County be authorized and is hereby authorized to issue quit claim deeds to said parties applying for the redemption of said land sold to Emery County, for the 1916,taxes,and which has not been redeemed, upon their paying all taxes, interest and costs accrued against said lands to date.

AUDITOR'S TAX DEEDS.

On proper motion the County Auditor was instructed to issue Auditor's Tax deeds to Emery County on all property sold to Emery County, for 1916 taxes, and which has not been redeemed, and to advertise the same for sale and to sell said land or offer for sale during the month of May 1921,as provided by law.

FARM AGENT

Communication from the Utah Agricultural College, and from Carbon County were read by the Clerk, in which they ask that Emery County cooperate with Carbon County in the matter of a Farm Agent for the two counties. The college would pay the entire salary of the Agent and that the two counties would pay an equal share of his expense in the discharge of his duties. The headquarters of the Agent to be at Price, Utah.

The matter was taken up with the President of the Farm Bureau, O.W. Sitterud, who seem to think that the farmers of the County could be better taken care of by the County Crops & Pests Inspector with his headquarters in Castle Dale, than to cooperate with

Carbon County on a Farm Agent with his headquarters at Price, and only receive one half of his time in the County.

Upon proper motion the Clerk was authorized. and instructed to notify the College and Carbon County, that Emery County would not cooperate in the matter of a Farm Agent for the two counties.

COMMUNICATIONS

A communication from E.S. Borquist, District Engineer, to the effect that hereafter and until further notice, team work on State Roads would be rated at $6.00 per day and single hands at $3.00 per day, was read by the Clerk and ordered filed.

A communication from County Physician Dr. T.C. Hill and inclosing a petition signed by a number of citizens using water from the Cleveland Canal and addressed to the Emery County Board of Health, in which they ask that sheep be prohibited from watering on said ditch, was read by the Clerk and the matter was turned over to the County Attorney.

Upon proper motion the following claims were allowed, approved for payment and the County Auditor, instructed to draw his warrant on the proper fund in payment thereof.

SALE OF LAND

W.G. Peacock Jr. appeared before the Board for Grace Mooney of Salt Lake City, Utah, and offered the sum of $2.00 per acre for the following described land, located near Green River, Utah, to wit;-N½ of the N½ of Lot 17 section 4 also SE¼ of Lot 15 Sec.4 Tp.21 South of Range 16 East, also the S½ of the SE¼: of the SE¼ Section 30 Tp.20 South of Range 16 East, S.L.M. said property having been sold to Emery County for the _____ taxes and not redeemed and an Auditors Tax deed having been duly issued to Emery County for same. Therefore upon proper motion the bid of $2.00 per acre as aforesaid is hereby accepted and the land is sold to Grace Mooney, and the County Auditor is hereby authorized and instructed to issue a deed to the said Grace Mooney, according to law.

SALE OF LAND TO THOMPSON & MYRUP

The matter of the sale of land by Emery County to Thompson & Myrup under date of October 4th 1920, was brought up at this time. The Board having heretofore made a personal investigation of the lands so sold and met with the people of Green River who expressed themselves as favoring the action taken by the Board with reference to said sale of land and who felt that the action taken was the best for all parties concerned. Therefore upon proper motion it is ordered that the Board take no further action with regards to modifying the order originally made by the Board under date of October 4th 1920,but that it remain as fixed.

COUNTY CROPS & PESTS INSPECTOR

Whereas, the State Legislature, which passed the law creating the Office of County Crops & Pests Inspector failed to make a provision wherein County Commissioners could make a levy on the taxable property of the counties, to take care of the Salary and expense of the Inspector doing this work, and, whereas, it has been necessary the past year, to pay the salary and expense of the Inspector from the County General Fund and which under the present law we are unable to levy to exceed 2 mills for General purposes. The revenue derived there from at this rate is insufficient to take care of the general expenses at the present time.

It is therefore, upon proper motion ordered that the crops & pests work in this County, be discontinued, same to take effect April 30th 1921, and that notice of this action be given to C.E. Cooley, the present Inspector.

FARM AGENT

An agreement between the County Commissioners and County Farm Bureaus of Carbon and Emery Counties, and the Extension Service of the Agricultural College of Utah, and the United States Department of Agriculture, relative to Extension work in Carbon and Emery Counties, was upon proper motion approved and signed by the Board, wherein the Extension service shall pay the salary of the Agent. The agent is to spend an equal amount of time in each county and each county to bear one half of the expense necessary in the discharge of his duties. The headquarters of the agent to be at Castle Dale, and Emery County is, to provide and equip an office for the Agent.

RESOLUTION

Whereas, it is probable that owners of real estate which has heretofore been sold to Emery County for the 1916 taxes and not redeemed and Auditors tax deeds have been issued.

Therefore be it resolved that the Clerk of Emery County be authorized to issue quit claim deeds to owners so redeeming said lands, upon their paying all taxes, interest and costs accrued to date, as provided in Section 6056 of the Compiled Laws of Utah, 1917.

REFUND OF TAXES

It appearing from the records that the following described real estate which was owned by the County, by reason of a tax deed, was sold in 1920, to B.J. Silliman of Green River, Utah, to wit;- West half of the South-west quarter, Section 16,Township 21 South of Range 16 East S.L.M.

Through some mistake, the County sold the same property and issued another deed to David A. West, which would not be effective, in view of the fact that the land was previously sold to Mr. Silliman.

Therefore upon proper motion, the Clerk is authorized and instructed to issue his warrant, payable to David A. West, in the amount of all taxes, costs and interest accrued to date on the above described property as a refund and according to a request filed by Mr. West.

TO REDEEM WITHOUT COST

It appearing from the records that the lands described as Lot 6 and SE¼NW¼ and NE¼SW¼ Section 6 Township 22 South of Range 7 East, was assessed for the year 1916, and there hasn't yet been a Final Certificate or Patent issued for said land, the land having been just recently been filed on by J.F. Larsen.

Therefore upon proper motion, it is hereby ordered that the assessment and sale be declared erroneous and that the lands be redeemed on the records without costs.

PAYMENT OF NOTE

It appearing that the note given by Emery County to the Desert National Bank, of Salt Lake City, Utah, for $5,000.00 is now past due, therefore upon proper motion it is ordered that the Clark issue his Warrant for the above amount together with the interest accrued thereon to-date in payment of this note.

Upon proper motion the following list of claims were allowed, approved for payment and the County Auditor, authorized and instructed to issue his warrant on the proper fund in payment thereof.

The Board of County Commissioners of Emery County, Utah, met on this the above date in regular session, all members being present the following business was transacted.

Minutes of May 2nd and those of June 1st and 2nd were read by the Clerk and were approved and signed by the Chairman of the Board.

_____

APPROPRIATION FOR ROAD.

A Committee consisting of Thomas Wells and others from Victor, met with the Board and ask for an appropriation to repair the road from Victor to the Austin Ranch road, stating that the road from the Austin Ranch to the Price Emery road was now in good condition and that they desired to connect up at that point, which would give them a direct outlet to Price.

Upon proper motion $50.00 was appropriated for this road.

A committee from the west part of Castle Dale came before the Board and ask for an appropriation for the repair of the old Castle Dale-Orangeville road under the Bench stating that the road was hardly passable at the present time, but wouldn't take a great amount to put it in good condition and that in as much as the greater part of the coal and wood for the people of Castle Dale is hauled over this road they felt that the road should be put in good condition.

Upon proper motion the sum of $100.00 was appropriated for the repair of this road, providing that the people interested work out a like amount.

RIGHT OF WAY FOR ROAD.

Wallace Grange of Huntington, came before the Board with reference to a right of way for the change which has been made in the Mohrland road for a distance at the point where the Mohrland road intersects the State Road North of Huntington, claiming that he and Carl Wilberg, former Co. Road Commissioner, had entered into an agreement wherein he(Grange) agreed to give the right-of-way if the County would fence it on both sides. That the fence had not been constructed as agreed and that he was here to find out what was going to be done about the matter.

Carl Wilberg was present and ask permission to say a few words regarding the matter, which was granted, Mr. Wilberg claimed that the agreement had been fully lived up to, that there was never an agreement entered into wherein he, acting for the County Commissioners, agreed to fence this particular piece of road.

In as much as there seems to be some misunderstanding with regards to the matter, it was decided, Upon proper motion, that they would investigate the matter further and take some action later.

Upon proper motion, the sum of $250.00 was appropriated for the completion of this road, with the understanding that the people appropriate or donate the same amount.

SALE OF LAND

W.G. Peacock Jr. appeared before the Board, and stated that he was representing a party in Salt Lake City, Utah, and was authorized to bid the sum of $2.00 per acre for the following described land which was sold to Emery County for taxes and not redeemed and an Auditors tax deed having been issued to Emery County for same.

ROAD

Whereas, The County Commissioners of Wayne County came to Emery County on two occasions to plead for co-operation in the construction of a road leading into Green River, and for the betterment of the present highway as far as it would be utilized on the proposed highway, and

Whereas, the said Wayne County Commissioners offered to constrict a good road to the point where it will be to the best advantage of both counties on the line separating the two counties as a meeting point, and:

Whereas, the Commonwealth Bank of Green River, thru their president, Mr. Hulse, has offered to redeem Emery County Notes bearing interest dated June first Nineteen Hundred Twenty-one, and falling due and payable on June first, Nineteen Hundred Twenty Two or one year from date of issue, in order to finance the project until funds will be available in Emery County, and;

Whereas, the need for the road is imperative and will result in actual benefit to Wayne and Emery counties by opening up a highway that will be passable the entire year and will greatly shorten the distance between Wayne county points and the railroad and will greatly stimulate trade relations between the two counties, therefore be it Resolved: that the Board of County Commissioners of Emery County do accept the offer of the Commonwealth Bank of Green River, and authorize and instruct the County Clerk to issue Notes in the total amount of Twenty-five hundred ($2500.00) Dollars in denominations of five hundred dollars ($500.00) each. Said notes to become due and payable June first 1922, one year from date, and to bear interest at the rate of six per cent per annum from date thereof until maturity, and be it further, resolved, that the funds derived from the loan of said money be expended entirely and exclusively upon the construction and betterment of the road leading from Green River to Wayne County and known as the "Hanksville Road" and no part shall be used for and other route or purpose.

TO CONSIDER POOR & DEPENDENT MOTHER

ALLOWANCES

It appearing from the report of the County Auditor that we are appropriating more funds to the Poor and Dependent Mothers than we are getting and can assess for those purposes. It therefore appears that it will be necessary to cut down the allowances in order that the appropriations will come within the amount derived or that can be collected for those purpose. Upon proper motion the County Clerk is authorized and instructed to notify all parties now receiving allowances from the Poor and Dependent Mothers funds of the County, that they will receive no further allowances until the amounts are re-fixed by the Board. Also to appear in person at the next regular meeting of the Board and state their case, or show cause why they should receive further allowances.

APPROPRIATION FOR ROAD

C.E. Larsen, of Castle Dale, met with the Board in behalf of the Farmers of Upper Joe's Valley at the head of Cottonwood Creek, for financial assistance in the construction of a stretch of road from the present Ephraim-Orangeville road at the head of straight Canyon and running North along Lowry Creek toward the Ranches in Upper Joe's Valley. Among other things Mr. Larsen stated that at present or under present conditions it was almost impossible to get to and from the ranches during the high-water season and that their lives were endangered in having to cross the creek. That by the construction of a short stretch of road they wouldn’t have to cross the streams in going to Upper Joe's Valley.

Upon proper motion an appropriation of $75.00 was made to assist in the construction of this stretch of road, said amount to be expended under the direction of Ranger Anderson.

Upon proper the following list of claims were allowed, approved for payment and the County Auditor instructed to issue his warrant in payment thereof.

It appears also that the same tract was by an error placed back on the assessment rolls for the year 1913 in the name that it was sold under for the year 1908. The land was again sold for the 1913 taxes and not redeemed another Auditor's tax deed was issued to Emery County for thee same tract. B.J. Silliman purchased the land from the County Commissioners under the 1913 sale and a tax deed was issued to him Jan.17-1921, not knowing that there was a previous sale on the land. Later David A. West of Salt Lake City purchased the land from the County Commissioners under the 1908 sale and was given a deed, after which it was discovered that a deed had been issued to B.J. Silliman for the same land.

After the matter was discussed for some length of time. Upon proper motion it is ordered that the taxes including all costs amounting to $173.04 be refunded to David A. West.

This completing the business of the Board of County Commissioners at this time upon proper motion tie meeting was duly adjourned.

SALE OF COUNTY LAND.

Mr. Giles offered the County Commissioners the sum of $500.00 for their equity in said lands, and the matter was taken under advisement by the Commissioners. Mr. Giles advised the Commissioners that he was prepared to go ahead with the adjustment of the affairs of the District, but that it would be impossible for him to pay much for the tax titles to said land, for the reason that there was such an indebtedness standing against the said district, that by the time the greater portion of said indebtedness was paid, that it would more than equal the actual value of the land, and thereby resulting in a very poor investment to any one who tried to get the matter adjusted. Mr. Giles also advised the Commissioners that it would take him some time to handle the situation as it should be, but that he figured that he had sufficient backing to make the attempt to straighten the affairs of the District. Mr. Giles finally made the original offer of ~500.OO for the tax titles and an additional ~200.00 to take care of the expense of computing taxes, making deeds, etc.

Therefore on proper motion the offer of Mr. Giles was aceepted, with the under— - standing that when the work of segregating the land into the different tracts and the office work completed, that an agreement, or resolution would be passed putting the agreement into fun foree and effect.

Chairman.

Attest:

Clerk

Castle Dale, Utah
September 4th 1923.

County Commissioners met on this the above date in regular session, Commissioners J.H. Otterstrom, and Peter Christensen, being present.

Minutes of August 6th 1923, were read by the Clerk, and on proper motion were duly approved.

Commissioner Otterstrom was again made temporary chairman of the Board.

Mrs. Horace Dunoan of Clawson, met with the Board relative to her father and state that she had been taking care of him for some time, and that her other brothers and sisters would not assister her in so doing, and wanted to know if some arrangements could be made whereby he could be sent to the Utah County Infirmary. After the matter had been considered the County Clerk was instructed to take the matter up with the Utah County Commissioners and ascertain what could be done in the matter.

TAXES.

Mrs. Mary Ann Gordon, met with the Board at this time, relative to her taxes for the year and also this year, and asked for an abatement of the same, stating that she had not received her abatement last year. After the matter was considered by the board, on proper motion it was decided that she be permitted to redeem last years taxes without costs, and that she be allowed an abatement this year of $10.00.

O Sorenson, Jr. met with the County Commissioners at this time, relative to the taxes due on land assessed to Maud Ziegler, same being coal lands, and are assessed in Book C page 34 line 26-30. The Commissioners being advised that these lands in question had been patented to Maud Ziegler, and by her deeded to Charles Ziegler, and by him deeded to the United States Government in lieu of other lands which he at one time decided to take, but before doing so the laws regulating said exchange were amended. That subsequent there to the Government had re-deeded to Charles Ziegler said lands, which deed was recorded during the year 1919. Therefore after giving the matter due consideration, the Commissioners decided that said lands should be assessed from the year 1919, and that a fair valuation to be placed on said lands for each year since that time, would be the amount the said lands were assessed for by the State Board of Equalization for the year 1923.

DEPENDENT MOTHERS.

The application of Laura a Tuft, for assistance from the Dependent Mothers Fund of the County was granted in the amount of $5.00 per month, and the County Auditor instructed to issue order on the said fund for the purchase of groceries, etc. at the Stores in the County to the extent of $5.00 per month, until the further order of the Board.

CLERK TO ISSUE DEEDS.

The County Clerk brought to the attention of the Commissioners the matter of the issuing the county deeds to Overson, McFarlane, and Larsen, as ordered by the Commissioners in their meeting of April 2nd 1923, Minute Book C page 379, stating that through an error the Auditors tax deeds had never been issued to Emery County, until after the above mentioned deeds were issued, and that in order to make the chain of title regular, that it would be best to issue new deeds to take the place of those issued as above stated. Upon proper motion the Clerk was instructed to issue said correction deeds.

APPOINTMENTS.

The resignations of Mrs. William Hitchcock of Ferron, and Mrs. E.E. Adams, of Green River, as Registration Agents of their respective precincts, were on proper motion duly approved and accepted.

On proper motion Mrs. Edd Christensen of Ferron, was appointed Registration Agent of Ferron Precinct, and L.C. Maharry was appointed registration agent of the Green River Precinct.

RESIGNATION OF COMMISSIONER.

The resignation of E.E. Adams, County Commissioner, and Chairman of the Board of County Commissioners was presented to the Board at this time, and on proper motion was duly accepted.

STATE ROAD COMMISSION.

The County Clerk was instructed to write the State Road Commission relative to the requisitions for $562.25 and $2000.00, stating to them that in the future the County Commissioners would like to have all claims for material, etc, as well as for labor on state roads pass through and be approved by the Commissioners, so that they would know somewhere near where we stand on appropriations at all times.

FARM AGENT'S REPORT.

The matter of fire insurance for the Court House Buildings, and contents, was taken up at this time and after the matter had been considered by the Board, it was decided that we raise the amount of insurance of the buildings to $6000.00, and on the Furniture and Fixtures at $3000.00.

CEMENT WALKS

On proper motion Carl Wilberg was instructed to proceed with the construction of a cement front on the south side of the Court House, and a cement path from house to the South Gate. Said work to be done for same price as that on the East Side of Court House.

TRANSITORY DEMANDS.

Letter from Henry Ruggeri, County Attorney of Carbon County, relative to the demands of Carbon County stating that Carbon County would like to get these demands taken care of and that in the event that they were not taken care of that Carbon County would be under the necessity of instituting an action to recover what they claimed was due on said demands. That it appearing to the Commissioners, and after they have been advised that the Legislature of 1919 had made it the duty of the State board of Equalization to apportion the taxes among the counties presenting grazing certificates or demands on the said State Board for their portion of said taxes. That the county of Emery pursuant to said law, did remit the money collected here from transitory herds and forwarded to same together with our demands on other counties. That the State Board received grazing demands on some herds from the different counties in which said herds had grazed for a total of 12 to 15 months credit whereas but a total of 12 months credit should be demanded. That the said State Board realizing the difficult task of apportioning these taxes and not having sufficient information as to just what tax was due each county claiming same, made a request of the 1921 Legislature for a change in said law which was granted, and the duty of paying and apportioning said taxes derived from transitory herds was again placed in the hands of the County Commissioners of the different counties. That the Commissioners take the position that if the State board of Equalization could not justly apportion these taxes for the years of 191 and 1920 among the counties claiming said taxes with the information which said board had, that it would be also a difficult job for the Commissioners to undertake to do the same task now or at any time after the matter was referred back to the Counties. Further that the time on some of the grazing certificates, upon which the demands are made, and on which the Carbon county officials claim credit is more than should be claimed and there is a doubt as to time claimed in each certificate. That for the reason of the uncertainty in the demands of 1919 and 9120 that we refuse to pay same. That as to the demand of said County for year 1921 that the same will be investigated and if found that the same was submitted in the time and form prescribed by law the same will be paid for that part which is justly due on said demand. That the demand for the year 1922 is denied for the reason that the same was not made within the month of January 1923, as the state law requires.

After the matter had been considered for some time it was decided that it be best to wait until Spring and then to make some necessary improvements along this road to take care of a like condition for another winter, and then to take the matter up with the Ditch Company and see that they took care of this water.

A Committee consisting of D. Heber Leonard, M.S. Black, William Green, Byron Howar, and Mr. Pritchett, the Druggist at Huntington, met with the Commissioners relative to the Huntington Canyon Road, stating that during that last year approximately $10,000.00 had been spent in the construction of a part of this road, which said sum had been appropriated half by the Forest Reserve and the balance had been donated by citizens of Huntington, and near by towns. That they had again taken the matter up with the Forest Reserve Officials for the completion of said road on the same basis as last year, but that the Forest Reserve did not have sufficient funds to put eh road over this year, but that they would be in a position a little later to do so. That the people of Huntington had taken the matter up with the State Road Commission, and they were advised to see the County Commissioners and have the Commissioners make a request of the State Road Commissioner that the sum of $7,500.00 be appropriated from the State Road funds to help in the completion of said road, there being about 10 miles yet to complete, and that the citizens of Huntington and vicinity would match the money thus appropriate. The Commissioners after considering the matter and being some what uncertain as to what the present condition of the funds for road purposes is, that before taking any definite action on the request that it would be best to have a complete statement of the road funds before so doing. Therefore on proper motion it is hereby ordered that the Clerk have a complete report of the present condition of the County Road fund as well as the State Road Fund by the time the next meeting of the Board is held.

The Commissioners advised these gentlemen that the proposition was still being considered by them, and that some action would be taken relative to the matter, as soon as the County was in a condition to do so, but that the Board would instruct the Assessor to make a complete investigation of the matter of the owners of this class of property and have them assessed.

Castle Dale, Utah
April 22nd, 1924

The County Commissioners of Emery County State of Utah, met on this above date in a special session, Mr. Otterstrom and Christensen being the only members present.

STATE ROADS

Mr. Kerr from the State Engineer's Office met with the commissioners at this time, relative to the matter of Maintenance and Betterment work on State Roads in Emery County.

Mr. Kerr said it was the wish of the State Road Commission to adopt the petrol system for maintenance of all State Roads, where it is convenient to do so.

Therefore upon proper motion it was decided to divide the State Roads in Emery County, into the following districts, one district from a Green River to Cliff, and one and one from Cliff to Carbon County line, one from Carbon County line to Huntington, one from Huntington to Orangeville, one for Castle Dale to Ferron, and one from Ferron to Sevier

line, and State Road agent, Heber Frandsen is instructed to place a man on each district, to maintain, and be responsible for his district.

Mr. Kerr informed the Commissioners that it would be necessary for them to purchase enough of the Northwest corner of the block just south of Bryan's old store in Ferron, to allow for an easy curve, at radius of about 100 feet, before the Government would receive the project. Therefore upon proper motion Commissioners agree to purchase the necessary ground to allow for the said easy curve, and instruct the State Road agent to do the work necessary to make the curve, said work to be done from maintenance charge.

This completes the business of the Board of County Commissioners at this time, on proper motion meeting was duly adjourned.

Letter from the state Road Commission relative to some trucks and tents which the Commission has and which will be turned over to the Counties for use on state Roads, was read and on proper motion the Clerk was instructed to write the Commission for more information relative to same before taking any further action.

AUDIT OF ACCOUNTS.

Letter from the Lincoln G. Kelly Company of Salt Lake City, submitting a proposition for auditing the accounts and books of the County was read, wherein the company offered to do this work on a basis of $25.00 per day for Senior Accountant in charge and $15.00 per day for Junior Accountants, together with hotel and traveling expenses.

After the matter had been considered by the Board, and it appearing to them that the proposition was rather indefinite in this that the Board had no information or idea as to the time the audit would require, that more information would be desired, therefore on proper motion the Clerk was instructed to write the above company that the Commissioners would like to know something relative to the time the audit would take before they took any further action on the matter.

Proposition of Beesley-Reeves & Company, for an audit of the accounts and records of Emery County was submitted on a basis of $18.00 per day for Chief Accountant in Charge of the Audit, and 42.50 per day for Assistant Accountant, with a maximum cost of $75.00 for one years work or audit.

On proper motion the matter was continued until the next regular meeting of the Board in order to enable the Board to get more information from the Lincoln G. Kelly Company as to the maximum yearly cost, or the total cost of the audit that this Company would do the work for.

TAX SUIT PIUTE COUNTY.

Letter from Gilbert R. Beebe, County Attorney of Piute County, and also letter from Governor, Attorney General, Auditor, Supt. Board of Education, Secretary of State, and Secretary of the State Board of Equalization, relative to the suit now pending in the Sixth Judicial District Court, Piute County, wherein Piute County is made a defendant, and the Union Central life Insurance Company is plaintiff, in which case the question is directly in issue whether the holder of a mortgage on real estate has a lien paramount to the lien of personal property taxes assessed against the over of the real estate. As this question is of vital importance to every County in the State,as the State Board of Equalization reports that eighty-five per cent of the real estate in Utah is under mortgage and we all know that if the line for personal property taxes is held to be inferior to mortgage lines, the State, the schools, the Counties, and the towns acid Cities of the state will suffer great loss in revenue.

That as Piute County is one of the smallest counties in the State, and her finances limited, her County Attorney hesitates to assume the responsibility of handling the litigation alone, and as the Attorney General of the State of Utah, has already ruled that the mortgage liens are superior to tax lines, that it appears that it would be best to hire special counsel and make a test case of the one now filed, and that each County contribute an amount to assist in defraying the expenses of the suit.

That it appears to the Commissioners that this question is a very important one and one that should be settled as soon as possible in order that the State and County Officials may know just what attitude to take in making personal property assessments hereafter; that if each County has to defend similar suits which will undoubtedly be instituted by Companies holding mortgages on real estate in their respective counties, that the cost will be great until the matter is finally determined. That they would be subserving the interests of tax payers of the County by contributing to the expenses of the litigation in Piute County.

Therefore on proper motion the sum of $50.00 is hereby appropriated from the General Fund of the County as a contribution to the expenses of making a test case above referred to, and the County Auditor is hereby instructed to draw his warrant in favor of Piute County for employing special counsel in said case.

SANPETE TAX DEMAND.

On proper motion the Grazing Demand of Sanpete County for their proportion of taxes collected on transitory herds assessed in Emery County for the year 1923,was allowed and the County Clerk instructed to check the same as to numbers assessed and amounts collected and to draw his warrant for the amount that Sanpete County is entitled to.

TRANSFER FUNDS.

On proper motion the County Treasurer is hereby authorized and directed to make the following transfers of County Funds.

$2500.00 from General Fund to Salary Fund.
$10,000.00 from County Road Fund to State Road Fund.

RIGHT OF WAY ROAD.

The matter of the right of way for road as well as ground for channel change, and which land belongs to J.B. Cox, was taken up at this time, and on proper motion an appropriation of $50.00 was made for the payment of the land used for this purpose, and the County auditor instructed to and authorized to issue his warrant on the County Road fund for said amount.

ROAD AND BRIDGE BONDS.

The matter of a refunding of the $35,000.00 road and bridge bonds by the County was taken up at this time, the County Attorney and County Treasurer having made the suggestion to the Board that it would be a great savings of Interest to the County, and would also materially assist the County in taking care of the present deficit the County is now carrying. On proper motion the County Treasurer was instructed to write the holders of the present bonds and ascertain if they would be willing to permit their redemption at this time.

On proper motion the following listed claims were approved for payment and the County Auditor instructed and authorized to draw his warrants for same on the proper funds of the County.

The matter of the assessment and sale of the following described land, to wit; the NE1/4 of the SW1/4 of Section 17, Township 21 South, Range, East, S.L.M. and owned by the Rochester Ranch company, was taken up for consideration at this time, and

Whereas it appears that the above described land was sold to Emery County for the 1920 taxes, and in the due course of procedure was deeded by auditor’s tax Deed to Emery County during the year 1925, and offered for sale at the regular May Slae and sold to one Howard Petty, and a County deed issued to him, and

Whereas it appears that considerable of the real estate owned by the Rochester Ranch Company was sold to Emery County for the 1920 taxes, and that during the Month of January 1923, Mr. L.C. Moore one of the members of the said Rochester Ranch Company, and an officer thereof met with the County Commissioners of Emery County to consider a settlement of the taxes due at that time on all the lands belonging to said Company, That an agreement and settlement was made and Mr. Moore was permitted to redeem all of the land of the

Rochester Ranch Company, wh1cth~had been sold to the County, for a certain amount of money. That the records of said meeting shows that considerable land belonging to said Company was ordered redeemed pursuant to said settlement, and that the above described tract of land was not included therein, but that it was evidently the intention of both the County and Mr. Moore to have the said tract included in said settlement, and

Whereas shortly thereafter Mr. Moore forwarded his check to Louis P. Oveson, County Treasurer, and asked that all of the said lands of the said Rochester Ranch Company be redeemed pursuant to said settlement, and the said treasurer proceeded to make redemption certificates *for* the said land, but in some manner unknown, the said tract above described was not included in the said redemptions certificates, although sufficient money was included in said check for its redemption, and

Whereas the record showing no payment or settlement of the said tract above described, the said land was deeded to the County, as above stated, and resold to Mr. Petty, and

Whereas the attention of the Treasurer and County Commissioners was called to said error shortly after the County had resold said land to Mr. Petty, and an investigation resulted which brought forth the foregoing facts, and

Whereas it appears from the records that the County Clerk, at the request of the County Commissioners has written to Mr. Petty, relative to said matter and advised him that there had been an error in selling said land, and that be would not secure any title as the County would or did not have any rights to sell, and that his money was ready for him at any time he desired to call at the County Treasurer's office and secure same, therefore,

Be it Resolved, that the County Treasurer of Emery County, be and he is hereby directed to issue a redemption certificate on said land above described in favor of the said Rochester Ranch Company, and the County Clerk be and he is hereby directed to write the said Howard Petty and advise him of the action of the Commissioners, and that his money will be repaid to him at any time he requests the same.

Therefore we the County Commissioners of Emery County at this time confirm the action of Herbert Moffitt County Auditor in refusing River to issue Auditors Tax Deeds to the Price River Water Conservation District and advertising for sale in the month of May property which the County has an interest in for the County Taxes Interest and costs, because the said District has failed to pay the County's taxes interest and costs against said property, and that Emery County will assume the responsibility of financing any law suit that may come out of the refusal of Mr. Moffitt County Auditor to issue the above said Auditors Tax Deeds.

RESOULTION RELATIVE TO TAX CASE SETTLEMENT.

On November 26th, a complaint was filed with the Clerk of the District Court of Emery County, State of Utah, wherein the Commonwealth bank of Green River, and the Emery County Bank of Castle Dale were named as joint plaintiffs, and Ray Cox, as Treasurer of Emery County, state of Utah, was named as descendent, and Whereas,

Said suit was commenced to restrain said County Treasurer from collecting or attempting to collect any of the taxes levied against said banks for the year 1929, and

WHEREAS,

An order to show cause and a restraining order issued by Judge Dilworth Woolley on the 25th day of November, and served on the aid County Treasurer on the 29th day of November 1929, wherein said County Treasurer was ordered to show cause on the 14th day of said December 1929 why a permanent restraining order should not be issued against the collecting of said taxes as levied against said banks, and WHEREAS,

The laws of the State of Utah provide for the assessment of all banks within the state upon a basis of their capital stock, and the said banks contending that there are other companies and individuals within the State of Utah transacting the sane kind of business as these plaintiff banks and other banks within said State, but which said companies and individuals are not assessed in the same manner as the banks, and that competing moneyed capital is being employed or used by said companies and individuals in competition with plaintiff banks and other banks in the state of Utah, but which said companies and Individuals are not assessed in the sane manner as said banks. Reference is hereby made to said company for further information, and WHEREAS,

Similar suits have been instituted by the various banks through out the state against the various county treasurers to restrain then from collecting the taxes so assessed and levied, and WHEREAS,

Most of said suits have been compromised by the various County Commissioners and settlements made on a basis of about 35% of the taxes levied, said action having been taken by said county Commissioners of the other counties of the state by reason of the fact that the legal question involved in suits brought by some of the National banks in other states, and in which units the same allegations were made as a re contained in the suit herein referred to, have been decided in favor of the plaintiff banks, and WHEREAS,

In view of such decisions as have already been rendered by the Supreme courts of the States where this question has been at issue, it would seem that the county has very little chance of successfully defending against said suit now on file, and WHEREAS,

The said Plaintiff Banks have made an offer of settlement on a basis of 355 of the taxes as levied and assessed against said banks, and WHEREAS,

This question was considered and discussed at an informal meeting of the commissioners of Emery County, and the County Attorney authorized and instructed to make a settlement of said tax suit on a basis of 35% of the taxes so levied and assessed, as it appeared to said commissioners that it would be for the best interest of the County of Emery and other taxing funds interested in said taxes so assessed and levied against said banks to compromise said assessment and levy of said taxes. That according to said offer of compromise the said Commonwealth Bank would pay a tax of $299.65, and the said, Emery County Bank would pay a tax of $579.68, therefore be it resolved,

That the action of the County attorney of Emery County in entering and signing a stipulation for the settlement of said taxes above referred to and in the amounts here in before set forth, be and the same is hereby approved and confined. This completing the business of the County Commissioners at this time the meeting is duly adjourned.
