On proper motion the order of the County Commissioners at their March meeting instructing the County Auditor to issue Auditors Tax Deeds to Emery County for all land sold for taxes in the year 1928, as provided by lawand act for and in behalf of the Board of County Commissioners in calling and conducting said sale is hereby made void and of no effect.

And on proper motion the County Commissioners instruct the County Auditor not to take Auditor’s tax deeds for property sold for taxes in the year 1928 until the year 1935 and not to conduct the May sale, because of the Senate Bill No. 45 passed at the latest Session of the Legislature, said Act amends Sections 80-10-25- and 80-10-59 of the revised Code and makes the following changes from the existing law:

Paragraph 7 of said letter of State Tax Commission reads as follows to wit: Delinquent taxes or the year 1928, 1929, 1930 or 1931 may be redeemed at any time prior to January 1, 1935 upon payment of accrued, taxes, plus interest thereon at two per cent per annum.

The Tax Commission has submitted this question to the Attorney General and has been advised as follows:

It seems to me quite clear that the Legislature of 1933 anticipated and intended that the Revised Laws of Utah, 1933, would become effective in sufficient time to suspend the coming May sale.

In view of the fact that it is important for county officials to soon know whether or not to conduct the coming May sale, and in view of the pending circumstances, it is my opinion that more confusion will arise out of the conducting of the May tax sale than if it is not conducted. I therefore advise you to suspend or have suspended the coming May tax sale.

The Tax Commission concurs with the Attorney General that it was the obvious intention of the Legislature to grant to taxpayers whose property had been sold for delinquent taxes for the year 1928 art extension of time within which to redeem and a reduction in the amount required to redeem. The Commission, therefore, advises and recommends that property sold for delinquent taxes for the year 1926 be not advertised for sale pursuant to Section 6056 either in 1933 or in 1934 and that property sold for delinquent taxes for 1929 be not advertised for sale during 1934.

This completing the business of the board of County commissioners at this time meeting is duly adjourned. The County concurs with the above.

Whereas, it will soon be necessary to find new locations for the two Civilian Conservation Camps in Emery County, F-10 and F—11, because of the coning cold weather, and
WHEREAS, Many of the workers at these camps are local men, some with families who would rather remain close to hone than to be sent to other sections of the country, and
Whereas, a road between Castle Dale and. Green River, Utah has long been in demand, not only to connect Green River with her County seat town, but also to provide a shorter and more convenient route by which transport supplies to the many herds of stock which range this section during the winter months, and
Whereas, the foundation of this road is already in place and all of the necessary material in the district, and
Whereas, the people of Green River must, at the present tine, travel 100 miles and. through the county seat of another county to reach their own county seat town, Castle Dale, while the new road would cut this distance almost in half and provide a direct route, Now Therefore, Be it Resolved, By the Castle Dale Commercial Club in regular session assembled, that one of the two Conservation camps air ready in Emery County, be moved to this district for winter quarters, and be used in building this much needed road for the benefit of our citizens and taxpayers, And, be it further resolved, That a copy of these resolutions be placed on the records of the Club, and that copies be sent to the Commanding Officer of C.C.C.Canp F—10, the Commanding Officer of C.C.C. Minutes of Commissioners Meeting field August 1st 1938. All members of the Board being present the following business was transacted.

Resolution

Whereas, Utah State Highway #10 leads out from Price, Utah, to Salina, Utah, traversing Emory County, Utah,

And Whereas, Utah State Highway #10 is tee connecting highway between Transcontinental Highway U. S. #50, and Transcontinental Highways U. S. 89 and 91, leading into Utah's Southern Parks and Utah's Southland, as well as into the States of Nevada and California and Arizona,

And Whereas, Utah State Highway No 10 also serves as the only outlet for a great and growing mining and a agricultural empire, known as Emery County,

And Whereas, because of these facts, travel on said Utah State Highway #10 to and from Price, Utah, is heavily and constantly increasing,

And Whereas, Utah State Highway No 10 is at the present time routed across the six tracks of the D. 8: R. G. W. R. R. Company's transcontinental railway, in the City of Price, State of Utah,

And Whereas, such railway crossing of such transcontinental railway is extremely hazardous both to lives and property of automobilists on said highway, as well as passengers on said railway,

And Whereas, if an underpass under said tracks of said railroad was constructed the hazards and dangers arising from the present railway crossing would be eliminated,

And Whereas, in addition to eliminating the hazards and dangers of such crossing, such

an underpass would create additional work for the many men now out of work due to the acute depression existing in the coal industry in Carbon County, Utah,

Now, Therefore,

Be it Resolved by the County of Emery that it go on record as favoring the construction of such an underpass on Utah State highway No. 10, at Price, Utah; and that the County of Emery petitions the Utah State Road Commission to take immediate steps toward the construction of such an underpass, believing that Utah State highway #10 will thus be mane safer and better for the use of the motoring public.

Passed by the County Commissioners of Emery County, Emery County, Utah, and approved by the Chairman this 27th day of July, A. D., 1938.

RESOLUTION

Whereas, Utah State Highway #10 leads out from Price, Utah, to Salina, Utah, traversing Emery County, Utah,

And Whereas, Utah State Highway #10 is the connecting highway between Transcontinental Highway U. S. # 50, and Transcontinental Highways U. S. 89 and 91, leading into Utah's Southern Parks and Utah's Southland, as well as into the States of Nevada and California and Arizona,

And Whereas, Utah State Highway No 10 also serves as the only outlet for a great and growing mining and agricultural empire, known as Emery County,

And Whereas, because of these facts, travel on said Utah State Highway #10 to and from Price, Utah, is heavily and constantly increasing,

And Whereas, Utah State Highway No. 10 is at the present time routed across the sic tracks of the D. & R. G. W. R. R. Company's transcontinental railway, in the City of Price, State of Utah.

And Whereas, such railway crossing of such transcontinental railway is extremely hazardous both to lives and property of automobilists o said highway, as well as passengers oh said hallway,

And Whereas, if an underpass under said tracks of said railroad was constructed, the hazards and dangers arising from the present railway crossing would be eliminated,

And Whereas, in addition to eliminating the hazards and dangers of such crossing, such an underpass would create additional work for the many men now out of work due to the acute depression existing in the coal industry in Carbon County, Utah,

Now, Therefore,

Be it Resolved by the County of Emery that it go on record as favoring the Construction of such an underpass on Utah State Highway No. 10, at Price, Utah; and that the County of Emery petitions the Utah State Road Commission to take immediate steps toward the construction of such an underpass, believing that such Utah State Highway #10 will thus be made safer and better for the use of the motoring public.

vs.	)	
COUNTY BOARD OF EQUALIZATION OF EMERY COUNTY, STATE OF UTAH, Appellant	)	DECISION

This is an appeal from the decision of the County Board of Equalization of Emery County, Utah, denying the petition of the appellant asking for a reduction in the valuation of property owned by the appellant, as determined by the Assessor of Emery County for the purpose of taxation for the year 1939.

The property is described as follows:
Improvements on: Lot 2, Block 3, Castle Dale Town site Survey.

A hearing was held before Commissioner H. P. Leatham, at Castle Dale, July 18, 1939. From the testimony given the assessment of $901 covers two homes on Lot 2, Block 3, Castle Dale. The proper assessment for the home owned by Mrs. Clawson is $650 and $251 for the smaller home on the same lot, owned by Lowell Clawson; therefore the assessment of $901 represents an equitable assessment of this property and the petition for a reduction is denied.

DECISION

This is an appeal from the decision of the County Board of Equalization of Emery County, Utah, denying the petition of the appellant asking for a reduction in the valuation of the property owned by the appellant as determined by the assessor of Emery County for the purpose of taxation for the year 1939.

The real estate assessed is described as:

N. 45 ft. Lot 1 Block 1, also beg. 9 ft. N. SW Cor. Lot 5, Block 1, North 58 ft. East 130.9 ft. S. 58 ft. West 130.9 ft. to beg. Farris Subdivision, Green River City.

The improvements consist of a home.

The assessor placed a value of Two Hundred Ten ($210.00) Dollars on the improvements.

A hearing was held before Commissioner H. P. Leatham of the State Tax Commission, at Castle Dale, July 18, 1939. From the testimony given, the Tax Commission finds that the valuation made by the County Assessor on the improvements in the amount of $210 is excessive to the extent of $110, and the County Auditor is hereby authorized and instructed to reduce the assessment on said improvements to the sum of $100.

The county is to be reimbursed by a Mr. Staker for the amount of the bill accrued as the equipment is to be used in making a fill in a wash near Elmo.

Change of Janitor

Motion was made by Rosel J. Jensen that the office of Janitor and Deputy Sheriff be combined starting October 1st 1939 and that the salary be fixed at the sum of $75.00 per month and that Carl Templin act as said janitor and Deputy sheriff. Motion was seconded by Commissioner Stewart Wilson put to a vote and carried unanimously.

Road Matters

At this time a delegation of citizens from Huntington, Castle Dale, Orangeville, Ferron, Emery, Cleveland and other towns in Emery County met with the Board of County Commissioners and Mr. Douglas Larson relative to obtaining an oil job on the road from Ferron to Emery. In the opinion of the delegation the road from Ferron to Emery should be oiled as it is much used especially as a school bus road and is dangerous at certain times in the year due to weather conditions and poor condition of the road.

Mr. Larson explained that state funds were depleted for construction and that all available funds were now being used for maintenance. Mr. Larson asked the delegation present if the road from Ferron to Emery was of more importance than the Salina Canyon Road or the construction new bridges over the creeks in Emery County. It was the sentiment of those present that the Ferron-Emery road was of most importance. Carlyle Crawford, County Commissioner made a motion that the next federal aid project in Emery County be the Ferron-Emery Road. Motion was seconded by Rosel J. Jensen. Motion was put and carried unanimously. Chairman Crawford then asked the delegation if that was the sentiment of all present. All present agreed.

The bridge over the Christiansen wash south of Emery was brought to the attention of Mr. Larson as being in a poor state of repair and he was asked if the state would consider repairing the bridge. Mr. Larson explained that as the state was constructing a new highway to the west the state would not repair the bridge but that would be left up to whoever took over the road.

The delegation present next asked Mr. Larson if the road work on the Huntington Canyon Road could be done by force account. It was explained that Emery County could furnish both skilled and unskilled labor. Mr. Larson explained what was necessary to change a job to forced account. Discussion pro and con was entered into by those present as to the advisability of changing to force account. Motion was made by O. W. Sitterud that the County Commissioners pass a resolution according to the wishes of those present asking that the Huntington Canyon road project be set up on force account for Emery County as this locality has been recognized as an emergency drought district. Motion was seconded by Clarence Guymon of Huntington. Motion was put and carried.

It was suggested by Mr. Larson that we go ahead with Huntington Canyon force account and investigate cleaning up of highways where hand and team labor can be used and replace wood structures with lumber from local saw mills. To create labor. Mr. Larson also agreed to arrange a meeting with the State Road Commission and the County Commissioners together with himself in the near future. The commissioners are to be notified when this meeting is to be held.

The Emery County Weed control and Eradication Committee, Merrill Cook, County Agricultural Agent, O.H. Barton, Ferron, C.N. Wakefield, Huntington, Oliver Jensen, Cleveland, George Magnusen, Castle Dale, Edgar Jewkes, Orangeville, Frank Hatt, Greenriver, Elmer Addley, Emery, excused:

The following program was adopted for the year 1943,

EMERY COUNTY WEED CONTROL AND ERADICATION PROGRAM
WITH
State Department of Agriculture and the
Emery County Commissioners Cooperating
1943.

As a sponsoring agent, the Emery County Commissioners have pledged themselves to the extent of $2,000.00 to be dispersed through the cooperation of the Utah State Weed Program for the purpose of eradication of noxious weeds as follows:

Hiring of labor, for, and the expense of destroying burdock and the purchasing and dissemination of weed chemicals for use on other noxious weeds.

It is anticipated that in this program the State of Utah will furnish six supervisors for six weeks time to supervise the men on the program of burdock control.

The concentrated effort of the program in 1943 will be on the burdock weed. The work will be done by hand labor in the main. This labor will be paid for by the county and performed by boys hired by the weed supervisor. Some chemicals will be applied in rocky places and places inaccessible for hand grubbing.

An effort towards the control of weeds will also be made by the use of chemicals. The county will furnish to any individual of person, chemicals for the purpose of weed control. This material will be furnished at cost prices.

The county will be divided into six districts for this job, namely:

1. Emery and Moore
2. Ferron, Molen, and Clawson
3. Orangeville and Castle Dale
4. Huntington and Lawrence
5. Cleveland and Elmo
6. Greenriver.

On the control of burdock it will be the policy to start the work as near to the west boundary of the weed's occurrence as practical and work down the streams and driveways as far as time and money will permit.

The wage scale set by the county is for boys from 12 year to 14 year $2.00 per day and the boys over that age $2.50 per day. The boys will only work six hours per-day.

The exact details of the program will be left to each district supervisor and the committee man working in cooperation with the county commissioners and the Utah State Weed Eradication program supervisors.

In the Green River district it is anticipated that most of the work there will be done by chemical on weeds other than burdock and will be principally morning glory and Bermuda grass.

The supervisors should be appointed early in the year so they might get the work well in mind before the time of the program. The program is expected to last about 30 days for the control of burdock. The chemicals will be shipped into the county by the county commissioners and dispersed through the county offices.

Every effort will be made to solicit the help and assistance of the land owners and operators. Whenever possible they will be made to solicit the help and assistance of the land owners and operators. Whenever possible they will be requited to assist the program in the ways and means best suited for the program determined by the supervisors of the project. Those who do not give full cooperation to the program will be watched very carefully and if necessary, a quarantine will be recommended in or order that the work might be efficiently carried out.

The chemicals used for weed control will be used only under the direction of the supervisor of the district, the county extension agent, or the agricultural inspector.

GROVER A. GILES
ATTORNEY GENERAL

S.D. HUFFAKER
DEPUTY ATTORNEY GENERAL

Mr. Wm. T. Litster
County Attorney
Castle Dale, Utah

Dear Mr. Litster:

Reference is made to your communication of July 7, 1943 wherein you request advice as to the proper interpretation of Section 19-13-15, Utah Code Annotated, 1943, as amended by Chapter 30, Laws of Utah, 1943.

Specifically, you ask whether or not the salary increase permitted by that section is based upon the maximum salaries permitted by Section 19-13-14, Utah Code Annotated, 1943 r whether the increase is based upon the salaries which, prior to the amendment of Section 19-13-15, had been fixed by the county commissioners.

The amended Section 19-13-15 provides that the county commissioners may, on or before July 1, 1943, increase salaries of county officers in an amount which, in their opinion, is sufficient and proper provided that said increase shall not be in an amount greater than, in your case, 25% of the maximum salary fixed by Section 19-13-14. Accordingly, it is clear that the commissioners, in fixing the salary increase, might fix the salary at any figure which, in their opinion, was sufficient and proper so long as it did not exceed an amount equal to 25% more than the maximum permitted by Section 19-13-14, and that salaries which may have, in the past, been fixed by the county commissioners would not necessarily have any effect upon the amount which the commissioners should determine as being proper.

It is noted, you state, that the commissioners did, in fact, on May 23, 1943, pass a resolution advancing the salaries of county officers in your county. As indicated above, it was left to the discretion of the county commissioners as to the amount of salary to be paid, within the limitations heretofore indicated, and hence, you must of course look to the resolution passed by the commissioners to determine exactly what pay increases were authorized by them.

Yours very truly,

GROVER A. GILES
Attorney General of Utah

Mr. Fred W. Reid
County Clerk of Emery County
Castle Dale, Utah

Re: Columbia Steel Company
Plancor 301
Coal Interests

Dear Mr. Reid:

This is in reply to your letter of September 13, 1943, in which you returned to us Treasury Warrant No. 1,401,977 for $450.00, which had been sent to you in consideration of the delivery to us of a Quitclaim Deed by the County Commissioners, covering certain lands in the Horse Canyon Area.

We note from your letter that you feel that Emery County has no right legally to quit claim titles to lands which do not belong to it, and that consequently the Commissioners have passed a Resolution denying their right to give a quitclaim to certain property described in your letter.

We regret the misunderstanding that has developed regarding this matter, and we assure you that it was not our intention to embarrass the County Commissioners by requesting an improper Quitclaim Deed. Our purpose in requesting the Deed was to obtain, first, the County's interest in property formerly owned by C.H. Gibbs, which has now been conveyed to us by Mr. Gibbs heirs; and second, to clear up all questions of past assessments on other properties being acquired by this corporation in the area.

We have entered into firm contracts to purchase the Ronzio & Delpiaz, F.C. Hennes and Peter Barboglio properties and we have a verbal understanding with the State of Utah that we are to purchase its property. These purchases

would have been consummated before the receipt of the above mentioned Quitclaim Deed, except that we have encountered delays in having Abstracts of Title continued to date.

Regarding the Thomas F. Keeley property, it appears from information in our files that we have already obtained title by a Deed of Conveyance from the heirs of Thomas F. Keeley, and it is our understanding that the title of Thomas F. Keeley had passed to his heirs through probate proceedings.

Mr. Calvin W. Rawlings, of our Counsel, informs us that he explained this situation to you fully while he was in Price recently.

In view of the circumstances, we are again sending to you herewith the above-mentioned Treasury Warrant for $450.00 in the hope that you will accept it as the agreed consideration for the Quitclaim Deed, and that you will have the County Commission nullify its action in denying the right of Emery County to quitclaim its interest in the lands covered by the Deed.

We are confident that in a short time appropriate documents will be filed for record in your County to clear up the whole situation to your satisfaction. Meanwhile, will you kindly acknowledge receipt of the warrant by signing and returning to us the attached copy of this letter. for your convenience there is enclosed a self-addressed envelope which requires no postage.

Yours very truly,

Agent

Dear My. Reid.

This is to certify that I have checked over the records of Emery County on the following described property to-wit:

SW ¼ of SE ¼ Section 16 Township 16 S.R. 7 East S.L.M.

The minutes of the Commissioners Meeting of Dec. 5th, 1938 show that the Commissioners sold this property to Royal Lott for $300.00 $60.00 Down payment, the balance to be paid in four payments of $60.00 Dec. 5, 1939, Dec. 5th, 1940, Dec. 5th, 1941, Dec. 5th, 1942.

That no payments have been made except $60.00 Dec. 5th, 1938.

Therefore, Royal Lott has made default in the payments on said property.

In my opinion the County Commissioners can resell this property.

Respectfully

Attention: Road Commissioner

Gentlemen:

It has been brought to our attention that there is a seven-mile stretch of road in Deer Creek Canyon, which is reached via Huntington Canyon, which is in a bad state of disrepair. I have contacted the State Road Commission Concerning this stretch, and they tell me that it is not a state road.

I do not know whether this is a county road, or whether it may be an access road, under the jurisdiction of the Bureau of Mines. However, there is a large truck movement over this road, occasioned by a coal haul under Government contract, to the WRA Relocation Center at Topaz, Utah. The numerous rocks jutting out of this road are causing serious injury to truck tire. These truck tires are made of pre-war rubber at pre-war standards, and each time one of them is injured beyond repair a great deal of crude rubber is lost to the war effort.

If you have jurisdiction over this stretch of road, we would consider it a great favor if the road could be scraped and leveled as soon as it is possible, in order to eliminate the rock hazard.

We appreciate the fact that you are short of manpower and equipment, and ask only that you do give this some consideration of possible, providing, of course, that it is under your jurisdiction. If not, we would greatly appreciate the information as to whom we could appeal for assistance.

We wish to thank you for your cooperation and interest, and hope that we may be able to assist you at some future date.

This letter is for your information in regards to Junior Live Stock Show for Emery County. It will be impossible for the Board of Commissioners of the county to designate a permanent place for the Junior Live Stock Show to the satisfaction of the majority of live stock growers in Emery County.

We have attempted in different ways and several times to bring the live stock growers together and develop this show to the best interests of this county but all attempts have been in vain.

We, the Board of Commissioner of Emery County, feel that further action, in the future, should be taken up through a united effort from the stock growers of this county direct with your office.

Fred W. Reid, Clerk March 9, 1944 Castle Dale, Utah

Colonel H.A. Rich
Director of Selective Service of Utah
Utah State Headquarters
Utah Oil Building
10 West Broadway
Salt Lake City 9, Utah

Dear Sir:

As Board of Commissioners of Emery County we desire the following information regarding the draft policies and ratios of quotas as per capita of population being used in the Selective Service program of Utah.

What units of Agriculture are considered in deferring draftees?

It has been brought to our attention by stock producers and farmers of Emery County that shortage of help is our most important industry, that is live stock, is acute and will decrease herds fifty per cent in this county this year. It is impossible to obtain help in this industry.

Is it the policy of Selective Service to draft indiscriminately, regardless of the needs of industry?

It is well understood that laborers cannot be shifted indiscriminately into the live stock industry any more than in other professional industries.

We would appreciate any suggestion or recommendation you may have for our county in winning the war on the home front.

The Emery County Weed Control Committee, Merrill E. Cook, Agent, Edgar Jewkes and State Representative J.B. Jewkes, submitted a tentative weed program for Emery County for the year 1944.

2. That seven districts be organized.
3. That Emery County allocate $2,000.00 to the Weed Control program.

EMERY COUNTY WEED CONTROL AND ERADICATION PROGRAM
WITH
State Department of Agriculture and the
Emery County Commissioners Cooperating
1944

As a sponsoring agent, the Emery County Commissioners have pledged themselves to the extent of $2,000.00 to be dispersed through the cooperation of the Utah State Weed Program for the purpose of eradication of noxious weeds as follows:

Hiring of labor, for, and the expenses of destroying burdock and the purchasing and dissemination of weed chemicals for use on this and other noxious weeds. Also paying of some travel expense of the supervisors.

It is anticipated that in this program, the State of Utah will furnish seven supervisors for five weeks' time to supervise the men on the program of burdock control.

The concentrated effort of the program in 1944 will be on the burdock weed. The work will be done by hand labor, but especially with chemicals. This labor will be paid for by the county and performed by boys hired by the weed supervisor. It will be necessary for a farmer to pay 50% of the cost of the chemical used on his place for him to receive the benefit of the program. The county will pay the other cost of the chemical. The county will pay 50% of the cost of chemical used on any noxious weed.

The county will be divided into seven districts for this job, namely:

1. Emery and Moore
2. Ferron and Molen
3. Clawson and Orangeville
4. Castle Dale and Lawrence
5. Huntington
6. Cleveland and Elmo
7. Greenriver

On the control of burdock it will be the policy to start the work as near to the west boundary of the weed's occurrence as practical and work down the streams and drive ways as far as time and money will permit.

The wage scale set by the county is for boys form 12 years to 14 years $2.00 per day and the boys over that age $2.50 per day. the boys will only work six hours per day.

The exact details of the program will be left to each district supervisor and the committeeman working in cooperation with the county commissioners and the Utah State Weed Eradication Program supervisors.

In the Green River district it is anticipated that most of the work there will be done by chemical on weeds other than burdock and will be principally morning glory and Bermuda grass.

The supervisors should be appointed early in the year so they might get the work well in mind before the time of the program. The program is expected to last about 30 days for the control of burdock. The chemicals will be shipped into the county by the county commissioners and dispersed through the county offices.

Ever effort will be made to solicit the help and assistance of the land owners and operators. Whenever possible they will be required to assist the program in the ways and means best suited for the program determined by the supervisors of the project. Those who do not give full cooperation to the program will be watched very carefully and if necessary, a quarantine will be recommended in order that the work might be efficiently carried out.

The chemicals used for the weed control will be used only under the direction of the supervisor of the district, the county extension agent, or the agricultural inspector.

The committee and the supervisors will use every precaution to help enforce the pure seed law and to encourage, through contacts and publicity, the use of good seed.

MINUTES OF A SPECIAL MEETING OF THE BOARD OF COUNTY
COMMISSIONERS OF EMERY COUNTY, STATE OF UTAH, HELD ON
SEPTEMBER 14, 1944

At a special meeting of the Board of County Commissioners of Emery County, State of Utah, held on September 14, 1944, the following Commissioners were present:

Carlyle Crawford, Chairman
Frank Hatt
Clinton Wakefield

Each of said Commissioners waived notice for the special meeting which was called for the purpose of determining what Emery County should do in the Malcolm McKinnon suits to quiet title wherein Emery County is named as a party defendant.

Chairman Carlyle Crawford presided at said meeting. Duane A. Frandsen, of the law firm of Jensen and Frandsen of Price, Utah, appeared before the Commissioners and explained to them Emery County's position in these law suites. Mr. Frandsen stated that County Clerk Fred W. Reid had called them, Jensen and Frandsen, on the telephone and asked them to represent the said count in the two law suits which had been filed, and that in pursuance to authority from Mr. Reid, they filed a Demurrer in the actions, and that they later learned that the County Attorney, W.T. Litster, had filed a disclaimer. Mr. Frandsen then advised the Commissioners that they were to one to decide what they would like done in defending these law suits.

Commissioner Frank Hatt asked Mr. Frandsen what he and Mr. Jensen would handle the case for. Mr. Frandsen stated that they would ask for a $50.00 retainer and that they would be able to tell very soon whether Emery County had any meritorious defense or claim; that if investigation showed that Emery County had no claim that could be asserted, they would proceed no further and their fee would be the $50.00 retainer, but if investigation revealed that Emery County did have a claim that could be asserted they would make a reasonable charge for the work done.

Mr. Hatt then moved that Emery County retain Jensen and Frandsen to represent Emery County in these law suits to quiet title filed by Malcolm McKinnon on the terms outlined by Mr. Frandsen, and that said Jensen and Frandsen be instructed to have the disclaimer, filed by Mr. Litster, with drawn and to present any defense of claims that Emery County may have as they see fit.

The motion was seconded by Clinton Wakefield and carried unanimously.

APPROVED:

Emery County Commissioners
County Courthouse
Castle Dale, Utah

Gentlemen:

Pursuant to the authorization given me over the telephone by Commissioner Wakefield, I agreed with the McKinnons to settle the two cases of McKinnon V. Fail and Emery County and McKinnon V. Klotz and Emery County for the sum of $500.00. I Understand this amount has been paid to the county and I have, therefore, signed the stipulation consenting to have the claims of Emery County withdrawn.

In view of the fact that the amount of the settlement was much less than I anticipated—and considerably less than we should have received had circumstances worked out differently—I am enclosing a bill for only $200.00 rather than the fifty per cent fee agreed upon. Inasmuch as I am leaving shortly for the Armed Forces, I would appreciate your approving this claim at once and sending me your check for that amount.

In view of the fact that you will probably have this same legal question arise again in the future, I suggest that keep in mind the experience we have had with this case and refuse to negotiate any settlement without the advice of your legal counsel. There is no reason why we shoul not have received a much better settlement in these cases if there had not been the misunderstanding concerning the merits of the case which caused you gentlemen to authorized settlement for payment of the taxes merely.

Respectfully yours

Arthur H. Nielsen

UTAH WATER
USERS ASSOCIATION
1320 Continental Bank Building
Salt Lake City 8, Utah

August 4, 1945.

County Commissioners of Emery County
Castle Dale
Utah

Gentlemen:

The Utah Water Users Association was organized for the purpose of promoting the conservation, development and utilization of water and power resources of the State, and with the cooperation of State and Federal agencies promote the cause of reclamation of lands of this State by irrigation. The 1945 Legislature formally recognized this organization as the one to adequately and property plan and execute the over-all work of improving conditions for water users of the State by passing laws permitting and encouraging counties to make direct contributions to it to carry out this purposes above set forth. The laws enacted are set forth in the 1945 Session Laws of Utah, Chapters 32 and 107.

Considering the questions of population, assessed valuation and water advantages to accrue to your county in ratio with the rest of the State, the officers and directors of this organization consider that your county might well contribute to us the sum of $200.00.

The development of our water rights and the increasing of the amount of water available for culinary and irrigation purposes are so important for post war projects that we feel sure you will desire to do whatever you can to assist and will set up in your next budget funds for this important purpose. If you have any questions relative to the advisability of making this contribution, a member of our organization will welcome the opportunity of meeting with you to more fully explain why such contribution should be made you your county.

Very truly yours
UTAH WATER USERS ASSOCIATION

RESOLUTION

Lorin Hunter and A.G. Jewkes Jr., representing the Castle Dale Lions Club, Floyd Brinkerhoff and County Representative D. Homer Jensen, representing South Emery interest and J.A. Theobald, secretary of Carbon County Associated Industries appeared before the Board of Commissioners of Emery County in support of the following resolution:

R E S O L U T I O N

WHEREAS, at an assembly and meeting held at Richfield, Utah, on August 16th, 1945, attended by various members of Boards of County Commissioners and/or duly authorized representatives of Civic Organizations and Groups of various cities and towns of Carbon, Emery, Sevier, Piute, Sanpete and Beaver Counties, it was unanimously determined and agreed that said Boards of County Commissioners of each of said counties, and all civic organizations and groups within said counties should petition and request the Utah State Road Commission and his Excellency, Governor Herbert B. Maw, to request of and from the Federal Bureau of Roads or such other agencies as may have jurisdiction thereof, to designate as a part of the Federal Aid Road system in Utah, that section of road known as Highway No. 13 commencing with Sevier Junction on Highway No. 89 and running westerly through Clear Creek Canyon to Cove Fort on Highway No. 91, and that section of road known as Highway No. 21, commencing at Milford and running westerly until it connects with Highway No. 6 at or near Baker, Nevada; and that the roads to be so designated as a part of the Federal Aid System in Utah, together with the Salina Canyon Road, known as a part of Highway No. 10 and which has heretofore been designated at a part of the said Federal Aid system be then completed and hard-surfaced as a part of the post-war Federal Aid Road System, so that there will then be a complete east and west Federal Aid Highway System running easterly and westerly through Central Utah; and

Whereas, large quantities of coal from and Carbon and Emery Counties are necessary for use in Southern Utah, and particularly in Sevier, Sanpete, Piute and Beaver Counties, and counties in Utah farther south, with no rail facilities, and which coal must of necessity be brought into said counties by truck, and the suggested Federal Aid Highway System offers the most feasible and economical route; and

WHEREAS, considerable quantities of livestock and livestock feed and supplies are hauled by truck from Emery County to Sevier County and visa versa, and the shortest and most economical route between the two counties is through Salina Canyon, not only for the transportation of livestock and Livestock feed and supplies but for transportation of coal and for the interchange of commerce between the said counties; and

WHEREAS, large quantities of potatoes, approximating several hundred car loads per year are transported by truck from Piute and Garfield Counties to Milford, Utah, for rail transportation to Southern California, and the shortest and most economical route for such trucking is through Clark Creek Canyon over said road No. 21, the said shipments aggregating several hundred car loads per year; and

WHEREAS, sheep men residing in Sevier, Sanpete and Emery Counties use the winter range lying westerly from Milford and served by Road No. 21, and have occasion each year to truck considerable quantities of sheep supplies and feed and sheep over the said road in order to reach such range; and

WHEREAS, it is the belief of the County Commissioners of said Counties, and of the various civic organizations, and the citizens and industries within all of said counties, that the counties and their citizens and residents could be greatly benefited from a standpoint of economy and in various other ways by the said Federal Aid System and construction of the said roads; and that such a road system is necessary and essential to build up the various communities and for the financial well being of the coal, livestock, sheep, farming and all industries; and

WHEREAS, the road through Salina Canyon has heretofore been designated as a part of the Federal Aid Road system and has already had expended upon it may thousands of dollars, but it is now without value and practically impassable at certain times of the year, and cannot be made serviceable or of any practicable value without completion; and

WHEREAS, the only stretches of road along the proposed Federal Aid Highway system which would run easterly and westerly through Central Utah and which have not been hard-surfaced are the following:

1. Completion of the Salina Canyon Road:

2. The Clear Creek Canyon road No. 13 (about twenty miles);

3. Highway No. 21 from Milford to Baker, Nev. (about 90 miles);

WHEREAS, the Clear Creek Canyon Road, No. 13, is within (or largely within) the National Forest, and is now and has been for some years completely graded and graveled and needing only the hard-surfacing to complete the same; and

WHEREAS, Road No. 21, from Milford westerly is now and has been for approximately forty years last past used as a post or mail route over which the United States Mail from Southern Utah to Ely, Ruth, McGill (Nevada) and that surrounding country, has been carried, and for same years last past has been graded and graveled and kept up to the specifications of a mail post road; and

WHEREAS, the inclusion of the Clear Creek Canyon Stretch and the Milford stretch, Highways Nos. 13 and 21, in the Federal Aid System, and the hard-surfacing thereof would be comparatively inexpensive because said stretches have been heretofore graded and graveled and engineered; and

WHEREAS, the completion of such a Federal Aid Highway system would serve thousands of tourists annually and provide a short and necessary route in passing through Central Utah;

NOW THEREFORE, BE IT RESOLVED BY THE Board of County Commissioners of Emery County, Utah, that the said

Board does hereby ratify and confirm all of the foregoing preamble and does hereby petition the Utah State Road Commission and his Excellency, Governor Herbert B. Maw, to take such steps and do such things as quickly as the same my reasonably be don, to accomplish the aforesaid purposes and place the foregoing described roads on the Federal Aid Highway System in Utah, and to complete the Salina Canyon Road; and that said Board of County Commissioners be represented at any meeting to be shortly called in Salt Lake City for the Purpose of presenting this matter to the said State Road Commission and said Governor Maw; and

BE IT FURTHER RESOLVED that said Board of County Commissioners call upon all civic organizations and groups within its county to likewise attend such meeting, and together with said Board of County Commissioners urge favorable action as hereinbefore stated.
